

By a "Times" Staff Correspondent
LONG BEACH, April 4.—(Exclusive)—High school systems have a new goal in view. While in the past the aim has been to give the student a broad general education, the new aim is to give him a definite purpose in life. This is the aim of the annual convention of the California High School Principals' Association, which is being held here today.

The urgent need of definite purpose for life work was stressed by the speakers. The convention was held at the Long Beach Hotel, and was attended by principals from all over the state.

Dr. J. H. Martin, of the Santa Barbara High School, was elected president of the Association, and J. H. McKillop, of the Santa Barbara High School, was elected secretary.

The convention will be adjourned later by the speaker, Dr. J. H. Martin.

The place for next year's convention has not yet been decided, but will be named by the association at its next meeting.

SPECIAL SESSION
A special session for principals of high schools having a student body of 1000 or more was held today with Louis H. Plummer of the University of California, Berkeley, as the speaker.

Dr. Plummer discussed the importance of having a definite purpose in life, and the need of having a definite purpose in life.

COMMITTEE REPORT
Reports of committees at the convention session included a report on the need of having a definite purpose in life, and the need of having a definite purpose in life.

The report was made by the committee on the need of having a definite purpose in life, and the need of having a definite purpose in life.

CLUB WILL SING
"Stabat Mater"
One of the most pretentious programs of Easter music to be attempted by university students here will be the rendition of "Stabat Mater" by the University of California Choral Club, which will sing at the Easter service at the University of California Chapel on Friday night.

Schenck Needs Not Answer Questions
What Joseph Schenck, who was indicted for the murder of Nathan Burkan, New York, will say in his defense is not known. He is expected to appear in court today for the purpose of being arraigned.

RUBBER CUT ACCREDITED TO HOOVER

Tilson Says Public Owe Secretary Gratitude Debt for Price Reduction

WASHINGTON, April 5. (P)—Consideration by the House today of the Newton bill to permit American importers to engage in pool buying of rubber, petrol and steel, was given full credit by Representative Tilson of Connecticut, the Republican floor leader, for bringing about a drop in the price of rubber.

Tilson argued that the American consuming public owes Secretary Hoover a debt of gratitude for the resolute leadership he took in protecting them when the attempt was made by Great Britain to force rubber prices to an exorbitant figure. He said that the Secretary's campaign against the British monopoly was of widespread importance to farmers, workmen and the public generally and resulted in a reduction of nearly 40 per cent in the cost of their automobile tires.

MIAMI BEACH (Fla.), April 5. (P)—Many millions of dollars will be saved to American motorists in the next year by the removal of British restrictions on rubber output, Harvey S. Firestone, tire manufacturer, said here today.

HAVANA, April 5. (P)—Exploding oil tanks at the Standard Oil Company's \$15,000,000 refinery at Regla, across the harbor from Havana, drove the inhabitants out of that suburb tonight. The tanks started to blow up within an hour after a fire had started which threatened destruction of the entire plant.

WASHINGTON, April 5. (P)—Senator Walsh in three-hour speech reviews history of naval oil and defends Smith and McAdams. Page 2, Part I.

Atlantic City Fire Set After Threat Letters

Two Window Washers Attacked and Pedestrians Join Free-for-All Battle

CHICAGO, April 5. (Exclusive)—Rioting broke out at Madison and Dearborn streets today when a crew of union sluggers attempted to assault two nonunion window washers and were routed by more than 100 pedestrians, who joined the free-for-all fight.

The window washers, Lloyd Gates and Justin Meun, had just started washing outside windows in the building at the southeast corner, when a band of twelve men, brandishing clubs, dashed at them from around the corner.

They attempted to seize the window washers. Pedestrians intervened and a fight followed with the numbers of the combatants being swelled by men alighting from street cars and hurrying from other streets to join the fray.

STOLP (Germany) April 5. (P)—Col. Grossa, aide to Gen. Umberto Nobile, has arrived here to take charge of preparations for the Italian expedition into North Polar regions in the dirigible Italia. The dirigible will stop at Seddin, six miles from here, before setting out for Kings Bay, Spitzbergen.

MIAMI BEACH (Fla.), April 5. (P)—Many millions of dollars will be saved to American motorists in the next year by the removal of British restrictions on rubber output, Harvey S. Firestone, tire manufacturer, said here today.

SLUGGERS FOR UNION START RIOT

Full-Rigged Ship Losing to Bark

SAN FRANCISCO, April 5. (P)—The bark Star of England is leading the full-rigged ship Star of Alaska by ten miles in a race which started here Tuesday for Bristol Bay. The skippers bet each other a month's salary on the outcome of the race.

A report on the race received by the marine department of the Chamber of Commerce said the Star of England was 315 miles north of San Francisco. The Star of Alaska holds the record for the trip by sail, which is twelve days.

By her flight from the southern tip of Africa to Cairo, Lady Heath is declared to be the first woman to fly from one end to the other of Africa and first to make a solo flight over the same territory.

NEW YORK, April 5. (P)—A contract for the construction of the Persian Gulf-Caspian Sea Railway will be awarded by the Persian government to a consortium composed of Ulen & Co., New York; Julius Berger Tiefbau, A. G., of Berlin; Philippe Holtzman, A. O., of Frankfurt; and Siemens-Bau Union G.M.B.H. of Berlin. The line will be about 1600 kilometers long.

WASHINGTON, April 5. (P)—An announcement was made tonight that Senator Goff, West Virginia, has entered his name as a candidate for the Republican nomination in the May 29 primary in his State.

WASHINGTON, April 5. (P)—The first batch of checks will be sent out by the Treasury next week to American claimants against the German government under the alien property bill recently passed by Congress. The checks range from \$1 into hundreds of dollars and cover claims running from personal injuries to property seizures.

menting of bronchial pneumonia
of St. Thomas on Fifth avenue.
It was at first thought
that President Coolidge was
sick, but it was stated at the
White House tonight that he was
do so. He sent a message of
sympathy.

From the ranks of clerks and
attendants in the New York Central
there came today a plan that
may be allowed Saturday morning
to pay their respects, even
though they could not be given
access to the church.

Although he was a director of
twenty or more large corporations,
Mr. Coolidge's name appears not to have
been associated with anything of a
personal fortune. No one could be
said today who could do more
than guess how many
an estate he left.

**NEW LINDBERGH
WINGS GET TEST**

Flyer in Air More Than Hour
With Monoplane

Boyish Smile Reveals Pride
in Latest Possession

Cameras Snap Him But He
Balks at Autograph

SAN DIEGO, April 5. (AP)—First
test flights of the new San Diego-
made monoplane, recently com-
pleted here by the B. F. Mahoney
Aircraft Corporation for Col.
Charles A. Lindbergh, were made
today by Lindbergh. The flyer, who
landed here yesterday from Santa
Barbara, took off from the Mahoney
flying field on Barnett avenue in
the new plane at 10:18 a.m., and
remained in the air until 11:25 a.m.
A fair-sized crowd was at the field
to watch the flight.

While Lindbergh was at the field
he posed as a squad of photogra-
phers, amateur as well as professional,
snapped him. That was by previous
arrangement. He balked, however,
at giving his autograph to a girl
who approached him, and sped away
as he declined. Soon after that he
went with his friends into seclusion.

Accompanying Lindbergh on the
flight was Donald Hall, designer of
Lindbergh's world-famous plane,
Spirit of St. Louis. The plane was
rolled out of its hangar early to-
day and was warmed up for the
flight by J. J. "Red" Harrigan,
chief test pilot of the Mahoney
company. Lindbergh smiled with
boyish pride as he examined the
plane. Its dimensions are practically
the same as those of the Spirit of
St. Louis and it is powered with the
same type of engine, a 220-horse-
power Wright whirlwind. Of stand-
ard biplane type, the plane has
gasoline capacity for 1000 miles,
and accommodations for four pas-
sengers, besides the pilot. Two high
night lights, each capable of devel-
oping 500,000 candlepower, have
been installed on the wing struc-
ture.

**HOOVER LEADS
IN NEW YORK**

(Continued from First Page)

knows farmers and their problems.
James R. Howard, first president of
the American Farm Bureau Federa-
tion.

His letter reads:

FARMER'S BEST FRIEND

"Hoover has done more than any
other member of the Harding and
Coolidge cabinets to give the Amer-
ican farmer actual economic relief.
No man in American public life has
shown himself a more devoted or
more useful friend of the farmer.
"Actions speak louder than words."
Look at his record. It was due
largely to his energetic and coura-
geous action that the American
farmer was saved from ruinous de-
pression during the later stages of
the war. After the war, faced
with a flood of withheld orders
for American food with continued
blockade of neutral and German
markets, he stood like a rock in a
position of world influence, and
circumvented tendencies which
would have broken the back of
American agriculture.

DEFLATION LESSENED

"While I agree that the post-war
plight of the American farmer was
bad enough as it was, yet without
Hoover's continued and successful
efforts to keep American food mov-
ing abroad the deflation would have
been more abrupt and absolutely
ruinous.

"The suggestion that the wheat
farmers would have received even
higher prices without control mea-
sures is an illusion. Hoover's fight
to maintain hog prices during the
three months following the armis-
tice is one of the most brilliant
chapters in the economic history of
the war."

Coming as it did as the Northern
California Hoover delegation re-
turned to San Francisco from the
great Republican rally in Los An-
geles yesterday, it was received by
them not only as a cheering but a
fitting testimonial to the unity of
the Republican cause in this State,
as well as a marked factor in the
growth of Hoover sentiment
throughout the Union.

**WISCONSIN CONTEST
CONTINUES IN DOUBT**

MILWAUKEE, April 5. (AP)—The
political complexion of Wisconsin's
delegation to the Kansas City Re-
publican National Convention re-
mains in doubt tonight. Virtually
complete returns show that the reg-
ular Republican forces had on
Tuesday waged their most vigorous
battle in twenty years against the
La Follette forces.

The La Follette forces were hold-
ing their narrow margin by main-
taining the lead in fourteen of the
twenty-six delegate contests. How-
ever, the race is still so close in
certain Congressional districts that
the delegation make-up may remain
in doubt until complete returns have
been received.

In several of the districts where
the La Follette candidates were
leading, his returns show the reg-
ular Republican candidates pressing
close on their heels.

Senator Robert M. La Follette,
Jr., Senator John J. Blaine, Walter
Kohler of Kohler and Andrew L.
Kreutzer of Wausau are leading for
the four delegate-at-large seats.
La Follette and Blaine are Norris
supporters. Kohler and Kreutzer
are regular Republicans.

A tomato-like plant which is
used in treating diabetes in Spain
will be tested by the University
of California.

Ship Put to Test

Upper picture shows Col. Charles A.
Lindbergh taking off with his new
air yacht, which is to be the suc-
cessor of the famous Spirit of St.
Louis. In the second picture he
is shown with B. F. Mahoney of
the Mahoney Aircraft Corpora-
tion, which built the ship. Below
the famous flyer is shown taking
a look at the cabin of the new
craft.

**D.A.R. AND KLAN
LINK CHARGED**

(Continued from First Page)

en's Federation of Clubs, the Amer-
ican Association of University Wom-
en, the National Council of Parent-
Teacher associations and the Farm-
ers' National Council are some of
the organizations on the D.A.R.'s
official proscribed list, according to
White.

His statement charges the Farm-
ers' National Council is under the
ban "because the outfit of apocryp-
tic old gentlemen who proposed the
silly military and naval program
which Congress has just defeated
were so greedy for their employers,
the munition men, that they feared
farm relief would require a dose
out of the taxes which would take
away the plunder of their houses."

**MRS. BROSSAU
GIVES TERSE REPLY**

WASHINGTON, April 5. (AP)—
After reading William Allen White's
statement, Mrs. Alfred J. Brossau,
President-General of the D.A.R., is-
sued the following terse pronoun-
cement, which she terms an "ultima-
tum."

"I thank Mr. White for his gal-
lant offer of the 'last word' and I
hope it will be the last word in the
entire matter. I emphatically dis-
claim all responsibility for the as-
serted list."

**Emma Carus's
Nieces File Suit**

NEW YORK, April 5. (Exclu-
sive)—Contradicting that their aunt,
Emma Carus, the actress, was in-
sane when she married Joseph Wal-
ter Leopold in April, 1926, Elizabeth
Bloch and Erna Mathers today
filed suit in Federal court to have
their aunt's marriage voided.

Mrs. Leopold died on November
18, 1927, leaving an estate of more
than \$100,000.

**Germans to Map
Tierra Del Fuego**

RIO JANEIRO, April 5. (AP)—
Hoping to find territory in the in-
terior of Tierra Del Fuego suitable
for European settlement, Capt. Gun-
ther Fleuschow and three German
sailors have arrived here in the
fifty-five-foot cutter Feuerland.

They left Buenos Aires, Novem-
ber 23, and are headed for
Punta Arenas, Chile, where they
will be joined by Ernest Breiblow,
German aviator. In his plane they
will explore the unmaped portions
of Tierra Del Fuego.

NEW CELL HOUSE STARTED

SACRAMENTO, April 5. (AP)—
With a force of several hundred
doing the work, construction of
Polson's new cell house and hospi-
tal unit has begun. The build-
ings will cost approximately \$300,-
000.

**HOT CROSS BUNS
Labeled "BAD"**

Pastor Says They Wreck
Homes Because Folks
Can't Digest Them

LONDON, April 5. (AP)—Hot
cross buns, millions of which
are made annually for Good
Friday, were labeled as home
wreckers by Rev. James
Shepherd, addressing an as-
semblage of women at Isling-
ton Chapel. He said:

"Don't eat hot cross buns
on Good Friday. Don't give
them to your husbands. They
are buns that were offered to
pagan gods."

"After a hearty breakfast of
hot cross buns you may act
like a pagan. Many homes
have been wrecked by indiges-
tible hot cross buns. So,
whether you are married or
single leave them alone."

DEMOCRATS IN VERBAL BATTLE

Smith's Tammany Status Cause of Warfare

Backer Says Governor Has Tiger in Control

Opponents Thereupon Blame Him for Its Sins

SAN FRANCISCO, April 5. (Exclusive)—Apparent Democratic lethargy during the last several days developed today to be the calm before the storm. The storm broke with a fusillade of figurative hail stones hurled at each other by the "day" Walsh faction and the "wet" Smith faction and observers believe the battle now is on in earnest for the California delegation at the May 1 primary. In one corner is Senator Walsh of Montana, opposite him is Gov. Smith of New York, and doing his best to butt in and steal the terms of both is the cohort sponsored by Senator Reed of Missouri.

At Smith's Tammany Hall affiliation was the thunderclap which brought the storm.

George Catts, Stockton Democrat, and Smith delegate, started things in a speech declaring "Tammany Hall does not control Gov. Smith. He controls it."

Whereupon John O. Davis, Walsh campaign chief, retorted:

"If Gov. Smith controls 'Tammany Hall,' as Mr. Catts asserts, either he was responsible for the ruffianism (referring to the national convention in 1924) or else, it was in his power to have checked it. Not only did he fail to check it, but he actually encouraged it. He actually encouraged it at the time but never since has he expressed a regret for it."

"As a result of Gov. Smith's open alliance with 'Tammany Hall,' the California supporters are being forced into defense of the notorious New York organization."

"Henry H. McKee, chairman of the Smith committee, took umbrage at the remarks of Manager Davis, and on behalf of his candidate launched forth as follows:

NO LONGER PRIGHTS

"Following the reports of Gov. Smith's sweeping victory yesterday in the primaries of Wisconsin, Michigan, Maine and New York came a cry of defeat from the camp of his weakest opponent in California. Smith is a member of 'Tammany,' says the spokesman of the man who is using in this state the name of the venerable Senator from Maine. Well, what of it? Millions of gold Democrats have belonged to 'Tammany' since the days when it was organized to help elect Thomas Jefferson. That old Republican boy was no less a member of 'Tammany' than those who know see Tammany as the largest labor employment agency in the world and, next to the Red Cross, the widest dispenser of charity."

BACKED LOSE

"When the primaries are over let us hope that the Democrats will unite in a mighty effort at victory for our party principles and forget our petty pretensions."

Davis responded with this one:

"Tammany has supported only one Democratic candidate for the Presidency in fifty years and that one was Alton B. Parker in 1904. Parker was one of the worst beaten men who ever ran for office in this nation."

Park Rum Seller Given 500 Days

YOSEMITE, April 5. (AP)—William C. Fairbanks of San Francisco was sentenced to 500 days in the Alameda County Jail by the United States Commissioner today for possession and transportation of twenty-one gallons of bootleg whiskey in Yosemite National Park. The sentence was in lieu of \$500 fine. Fairbanks' automobile was confiscated.

"Dixie Special" To New York By Rail and Sea

Leaving April 15, from Los Angeles to New Orleans and thence aboard the steamship "Dixie" for a five day cruise to New York.

Make this delightful excursion trip east on the Sunset Limited first-class, luxuriously appointed flyer over the scenic SUNSET ROUTE. Then the balmy spring-time ocean voyage along the eastern coast—100 golden hours at sea at no additional cost over direct fare to New York.

It's the travel event of the season. Make your reservations now. Phone or call for further information today.

Let this be your spring tonic.

BARBEE CLOUTS TWO HOME RUNS

Outfielder Gets Four Hits in Four Times Up

Wildness of Pitt Figures in Beaver Victory

Johnny Couch Stops Angels After Second Round

BY BOB RAY

As a result of some hefty hitting by Dave Barbee, who clouted a couple of home runs over the left-center field wall, some fuzzy flinging on the part of Johnny Couch, a 2 to 1 victory over the Angels yesterday in the daily doings at Wrigley Field.

This Barbee, who is now playing left field for the Beavers, had quite a field day at the plate. The first time up he walked, but his next two attempts he lined home-run drives over the left-field wall. Pitt held him down to singles in the other two times he appeared at the plate and called it a moral victory.

Before the season opened Frexy Turner, the gray-haired boss of the Beavers, in one of his many broadcasts stated that in Barbee he had a "chaser" who "hit 'em from town to town," and would absolutely be the hardest right-hand hitter in the circuit. Barbee is certainly doing his best to live up to Frexy Turner's raving, for in the eight times he's been at bat he has collected three home runs, three singles, a walk and been retired once.

Returning to the chronicle of the contest, the Angels could make it embarrassing for Couch in only one inning. That was the second, when three hits and a sacrifice were bunched for their two scores.

BARBEE STARTS SHOOTING "Spec" Pitt held the enemy safe for three rounds, but in the fourth Barbee started shooting home runs. "Dynamite Dave" exploded another circuit clout in the sixth and the contest was tied tighter than a Scotchman's purse strings.

In the eighth round Pitt lost the location of the plate and three successive walks, one of which was intentional, forced over what proved to be the winning run. The Beavers picked up their final counter in the ninth when, after two were out, Knothe reached first on Jones' error and romped home on Tony Roy's triple to center.

Umpire Fanning was considerably off on his decisions on balls and strikes, which didn't do Pitt's performance any good. "Spec" is a hurler who works on the corners and when the arbiters aren't calling him right it puts him in a jam. Pitt looks like a smart pitcher out there and he ought to win quite a few ball games for the Beavers.

Fanning put Pitt in the hole right off the bat when he missed two perfect strikes on Le Bourveau and the Beaver lead-off man drew a pass. Davis sacrificed and then Smith walked. Sigra's infield out moved the pair along. Barbee also walked, perhaps it was fortunate for Pitt that he did, and the bases were bulging. Staley took care of

(Continued on Page 2, Column 3)

Both squads have their strength concentrated in particular events, but the Tro-

trojans expect victory over Illinois athletes.

If past performances mean anything—and usually they mean just about as much in track meets as they do in football, which is practically nothing at all—the University of Southern California track athletes should hang up their first victory of the season in the Coliseum Saturday afternoon, when they meet the University of Illinois trackmen.

Both squads have their strength concentrated in particular events, but the Tro-

trojans expect victory over Illinois athletes.

All-Conference Frosh Meet at Pomona Today

Frosh athletes of the Southern California Conference will gather at Pomona College this afternoon for the annual

meetings. The affair was originally slated for Caltech, but it was changed to Pomona after having previously been transferred to Redlands.

The meet looks like a struggle between Occidental and Pomona. The Tigers have a fine sprinter in Belmont, and a good all-around performer in Brown. Pomona's strength lies in Harvey Bear, sprinter and broad jumper; Quincy Hunt, high and low hurdler; and McKnight, weight man and quarter-mile.

Whittier has a colored boy who is very fast in the sprints and a quarter-mile, while San Diego will introduce a seven-man team of considerable strength.

Here are the frosh records: 100—Benson (P.) 18.5, 200—Benson (P.) 37.5, 400—Benson (P.) 1:12.5, 800—Benson (P.) 2:25, 1,600—Benson (P.) 4:50, 3,200—Benson (P.) 9:50, 6,400—Benson (P.) 19:50, 12,800—Benson (P.) 40:00, 25,600—Benson (P.) 80:00, 51,200—Benson (P.) 1:30:00, 102,400—Benson (P.) 2:40:00, 204,800—Benson (P.) 5:10:00, 409,600—Benson (P.) 10:20:00, 819,200—Benson (P.) 20:40:00, 1,638,400—Benson (P.) 41:20:00, 3,276,800—Benson (P.) 82:40:00, 6,553,600—Benson (P.) 165:20:00, 13,107,200—Benson (P.) 330:40:00, 26,214,400—Benson (P.) 661:20:00, 52,428,800—Benson (P.) 1,322:40:00, 104,857,600—Benson (P.) 2,645:20:00, 209,715,200—Benson (P.) 5,290:40:00, 419,430,400—Benson (P.) 10,581:20:00, 838,860,800—Benson (P.) 21,163:20:00, 1,677,721,600—Benson (P.) 42,326:40:00, 3,355,443,200—Benson (P.) 84,653:20:00, 6,710,886,400—Benson (P.) 169,306:40:00, 13,421,772,800—Benson (P.) 338,613:20:00, 26,843,545,600—Benson (P.) 677,226:40:00, 53,687,091,200—Benson (P.) Dudley Signs Contract With Herbert Lubin

Ed Dudley, former Hollywood Country Club "pro," signed a year contract to instruct Herbert Lubin yesterday. Dudley, who ranks as one of the leading professional golfers in the country, is likely to remain in Southern California the greater part of the year.

LOCAL RUNNER COPS SPEED LAP

(Continued from First Page)

draw Payne, Jr., the youthful Claremore runner was advised to "keep your head and feet together, Andy."

Philip Granville of Hamilton, Ont., was fourth in 6th. 20m. 13.4. while Arne Sourander of Detroit, Mich., was fifth in 6th. 20m. 13.4. Sourander's time was 13m. 10.4. Granville's time was 13m. 10.4.

The day's grind was covered in 2:31 flat by Louis Perella, Albany, N. Y., whose total for the trail from Los Angeles to 2:31:24. Next was Peter Gavran, Southampton, Eng., whose elapsed time of 2:31:24. Next was Peter Gavran, Southampton, Eng., whose elapsed time of 2:31:24.

Other runners with today's time and their elapsed times follow:

W. W. C. Little of that club. He was last in the competition, but he was not out of the race.

The following are the twelve leading runners and walkers in the coast-to-coast race and their elapsed times for the 1189 miles from Los Angeles to Amarillo:

Arne Sourander, Detroit, 13m. 10.4. Next was Peter Gavran, Southampton, Eng., whose elapsed time of 2:31:24.

ARMAND EMANUEL TO FINISH TRAINING HERE; WILL HOLD CONFAB TODAY WITH DEMPSEY

Armand Emanuel will arrive here today from San Francisco to finish training for his ten-round bout with Matt Adgie at the Olympic next Tuesday night.

The Jewish boxer, who is 25 years old, has won his last four starts by the knockout.

Just before coming to Los Angeles he had four bouts in fourteen days, stopping them all inside three rounds.

The opponents were Willie Matthews twice—once in Philadelphia and the other in Philadelphia—Johnny Alberts in Reading and Kayo Sampson in Scranton.

Matchmaker Wad Wadhams announced his complete supporting card yesterday. The same card was given to the press yesterday.

It is not very often that preliminary bouts both Limbo and Evans were required to drop \$300 in the commission strong box as a guarantee of success.

The other three bouts on the card are Phil Harris vs. Billy Blake, Ted Elmer vs. Harry Evans and Happy Rogers vs. Billy Clark.

The Olympic box office will be closed today due to Good Friday.

Galasso tells how he won championship of San Diego

BY TONY GALASSO

1927 Junior Olympic Champion

The morning of the big meet I got up about 7 o'clock as usual.

After getting dressed I walked over to the gym to meet Mr. Burns who told me to take a cold shower to wake myself up and steady my nerves.

All I had for breakfast was a half-pint of milk. As Mr. Burns and I drove to the stadium all we could think about was how the meet would come out.

As we entered the stadium we saw the track all marked out for the various events. We were the first ones to enter the dressing room but before I had my track suit on many other boys began to gather there, too.

By looking at their faces you could see that they were very much concerned about how they would place. Before going out on the field each boy had to have his confident taken again.

I weighed 119½ lbs. was 5ft. 4in. tall, and my age was 14 years and 8 months. That gave me a coefficient of 20.

PEOPLE DIVIDED

I know that the great number of people who were gathered on the outside were divided in their opinions as to who would win. About half of them, mostly from the north end of town were for Charles Mason from University playground, while the other half were from my end of town and had confidence in me.

Knowing our competition would be keen I could not help but notice him as he dressed. I saw by his tan that he had been out in the sun a great deal as I had been. He was a little taller than I, but we were about the same weight and age.

Mason drew a smaller number than I did and preceded me in the events. Our interest as well as that of the crowd was centered in each other's performance because none of the others had come near our marks in the preliminary events.

As I watched Mason throw twelve basketball goals I was confident I could beat that because I had made nineteen out of twenty in practice the day before. To begin with I made five straight when suddenly realizing the importance to me of what was doing I became very nervous and the best I could do was to equal his mark. This gave me a one point lead because his was a one point lead because his

quite a stir in the all-playgrounds meet scheduled for the 14th inst. Victor Provenzano, who won the first medal in the senior division at Hazard playground, also showed to good advantage in the Olympics. His best mark was a total of nineteen points in the bar-chinning event.

THE RESULTS:

Arroyo Rec Playground: Seniors—Dolph, third, 24. Juniors—T. Deal, 24.25. Seniors—T. Deal, 24.25. Juniors—T. Deal, 24.25.

Arroyo Rec Playground: Seniors—Victor Provenzano, first, 115. Juniors—Victor Provenzano, first, 115. Seniors—Victor Provenzano, first, 115. Juniors—Victor Provenzano, first, 115.

Arroyo Rec Playground: Seniors—Victor Provenzano, first, 115. Juniors—Victor Provenzano, first, 115. Seniors—Victor Provenzano, first, 115. Juniors—Victor Provenzano, first, 115.

SENATORS PLAN EARLY GETAWAY

Adjournment of Session May 19 Expected

Bills in Good Shape for Campaign Holiday

Quick Action on Colorado River Held Likely

BY ROBERT B. ARMSTRONG
Times Staff Correspondent
WASHINGTON, April 5. (Reuter)—Senate Republican leaders are planning to end this session of Congress on Saturday, May 19, and if not then, certainly not later than Saturday, May 26. Several conferees of the Senate Steering Committee to this end already have been held and the greatest care has been taken in speeding up the important legislation to make this possible so that the senators will be able to get away from Washington in ample time to prepare for both national conventions—the Republican at Kansas City on June 21, and the Democratic at Houston, Tex., on June 25.

When the Senate gets through all important legislation the leaders promise to make a quick getaway and may leave the House over-looked with much legislation that it has not fully passed on but such action will prevent any filibuster, such as the one that ended the last session of Congress and caused a lot of Senators to lose sleep in night and day sessions.

WAY ALMOST CLEAR
Most of the appropriation bills necessary are well along and the most important measures, aside

THE EVERGREEN PLAYGROUND

WHERE
fairways are green
and days are cool!

EVERY HOUR of summer—midday, as well as morning or evening—is an inviting hour for golf in the Evergreen Playground of Puget Sound and British Columbia. You'll tee off for the second round without a fagged feeling. The days are cool, comfortable and exhilarating. Because of the longer days in these northern latitudes you get extra hours to enjoy golf.

When Mid-West golfers leave their clubs at home because it is "too hot to play" on brown sunburned courses, the golfers in this region are enjoying cool golf on courses as green as the forests surrounding them. Many are on lakes and seashore. Most of them have carved out of virgin forests by skilled golf architects, who have retained and capitalized the beauty of their natural surroundings. Visitors are welcome on any of the 52 golf courses here; you'll find splendid municipal links, too!

Come North this summer to the Evergreen Playground of Puget Sound and British Columbia... See ALL of the Pacific Coast!

It is a cool vacation country with inland sea, lakes, many within city limits, and literally hundreds of rivers running full with pure cold water from the melting snows of mountains and glaciers.

If you are going East, ask your ticket agent to route you one way via "The Evergreen Playground." From California the through route by steamer here, and then eastbound, is the same as your direct rail fare East. The all-rail trip via the northern lines is only slightly higher.

Our free illustrated booklet, "The Evergreen Playground," will assist you in planning your trip and vacation "Under Two Flags." Mail the coupon today.

[Come by regularly scheduled air coach, train, steamer or paved highway]

PHO 332 TAP AT THE INTERNATIONAL BORDER

JAZZ ROW BREAKS CAPTAIN

Second British Officer Dismissed Over Dispute With Admiral Concerning Ship's Band

GIBRALTAR, April 5. (AP)—A second British naval officer concerned in the controversy over jazz music and the ship's band on the British battleship Royal Oak, at Malta, has been condemned by court-martial and duly punished. Capt. Kenneth G. B. De War, commander of the Royal Oak, received a similar sentence to that imposed on Commander H. M. Daniel, in the court-martial which concluded on the plane carrier Eagle here tonight.

He was found guilty of acting in a manner prejudicial to discipline in acting and forwarding a letter written by Commander Daniel criticizing Rear-Admiral Bernard H. O. Collier, in command of the first squadron of the Mediterranean fleet.

SECOND CHARGE
The second charge against Capt. De War, of accepting and forwarding a letter whose terms were contrary to the King's regulations, was announced as "not proved." The sentence was dismissal from his ship and a severe reprimand.

Capt. De War's trial was the more dramatic because he faced Rear-Admiral Collier, his superior officer. Several hot exchanges occurred between the two men. De War conducted his own defense and made a fifty-minute speech to the court.

from these bills, may be disposed of in both houses if this program does not strike a snag between now and the middle of next month. The most important measure now pending, aside from the appropriation measures, is the proposed income tax reduction on 1933 incomes. The House provided for reductions totaling \$300,000,000 and the Senate Finance Committee now is trying to trim this amount to the estimate proposed by Secretary Mellon of the Treasury to \$200,000,000. The Democrats propose to make a fight for a total reduction of \$300,000,000.

000 but they are divided and the Republicans will have their way in the Senate. Some of the House leaders may have difficulty in getting the bill to pass. The House already provided in the House bill but any tax income legislation that gets to President Coolidge will have to be within the limits of estimates provided by Secretary Mellon or it will receive executive disapproval and there are not enough votes in either house to pass it over his veto.

The same is true of the Mississippi flood measure which so suddenly broke the tie between the two houses. The House has a bill but the Senate has no bill. The House bill has a limit of \$400,000,000 but the Senate will be disappointed by the Chief Executive. Steps now are being taken to make the House leaders limit the cost to a reasonable figure and enable the Federal government to begin active work on a flood-prevention program.

FARM AID IN PERIL
The revised farm-relief legislation still contains a provision that it is being vetoed last year, and unless that is corrected in the revised McNary-Haugen measure it will be vetoed by the President. It will not embarrass him, for he is no longer a candidate for office, and he cannot reconcile himself to any form of subsidy for the benefit of any class in the United States.

The income tax reduction measure and all the unfinished appropriation measures will have the right of way in both houses. The steering committee of the Senate has granted the Colorado River legislation a place right after the McNary-Haugen farm-relief bill, and there is a possibility it may be as quickly voted as the Mississippi flood-relief bill was in the Senate.

It has been very much changed from the form in which it appeared last year and may get through the upper house as now drawn. In the House it will have harder dodging, as the Committee on Rivers and Harbors has not yet granted any time for its consideration and there will be many other important measures in competition with it for preference under the House rules. It is problematical with the House and Senate leaders whether any legislation will permit flood-control legislation for the Colorado at this session.

COMPROMISE SEEN
If an early adjournment becomes certain, as it seems now, there may be a general movement on the part of Senators and Congressmen from the Colorado River States to authorize the Federal government to start the construction of a flood-control dam somewhere in the Colorado River Valley at the full expense of the Federal government for flood prevention in the Imperial Valley. This dam could be constructed in several places with a broad enough depth and strength to permit later a higher dam to be added for power and domestic water development on some basis satisfactory to all the Colorado River States as economic conditions may require.

This may be the solution of the seven-State dispute or else all legislation is likely to go over to the next Congress, which ends under the Constitution on March 4, 1935, and prospects of anything in the way of legislation then are very remote.

Senate leaders of the Republican party have been generally consulted about the proposed time of adjournment, and all are in accord with the plan. If the Senate should clean up all important matters after the appropriations are over, it could adjourn and prevent any filibuster. Pending measures then in the House simply would die a natural death and not be lost in a general filibuster as was the case at the end of the last session of Congress.

SENATE TAKEN TO OIL SCHOOL

Walsh Conducts Class in Reserve History

Attack by Republican on Smith Scored

McAdoo's Doherty Retainer Held Proper

WASHINGTON, April 5. (AP)—Conducting a class in naval oil reserve history today in the Senate, Senator Walsh of Montana, relentless prosecutor in the oil scandal, took Senator Robinson, Republican of Indiana, severely to task for what was described as the "issue of misrepresentation" running through his recent Senate speeches on the oil question.

The Indiana was especially bitter for his attacks upon Gov. Smith of New York, William G. McAdoo and the Wilson administration, which had been accused of concealing the "conspiracy" for the exploitation of the naval oil reserves.

TURNING SCHOOLMASTER
Armed with a long wooden pointer, Walsh paced from one to another of five huge maps of the naval oil reserves hanging on the Senate wall to illustrate his recital of how far afield Robinson had been in discussing the naval oil leases and especially in saying that the leasing policy had been inaugurated by Josephus Daniels, as Secretary of the Navy, and John Barton Payne, as Secretary of the Interior.

The Indiana Republican sought occasionally to interrupt the oil prosecutor, who became so emphatic in delivery and gesture that he broke the pointer by whipping it across his palm to emphasize his remarks. The shout came from the Indiana side of the chamber near where Robinson was seated.

"FIFTEEN," said WALSH
Adverting first to Robinson's attack on Gov. Smith, who like the Montanan, is a candidate for the Democratic Presidential nomination, Walsh dismissed as "piffle" Robinson's complaint about Smith keeping Harry F. Sinclair as a racing commissioner in New York, and asserted that the Democratic administration accepted a campaign contribution from him in 1920 before the naval reserves were leased.

"The governor of New York is a most extraordinary man in many respects," said Senator Walsh. "Even cynicism has not dared to say that he is not honest." The heinous offense of which he is charged is that he appointed or retained Harry Sinclair as a member of the Racing Commission. No one could find culpability in a manager in the Democratic campaign in 1920 in New York in receiving contributions from Sinclair.

"This whole thing seems to me to be of that character, which might be described in the language of the street as 'piffle'."

DEFENDING McADOO
Declaring that the facts concerning the employment of McAdoo as counsel for Edward L. Doherty, who leased Reserve No. Two in California, were well known, Senator Walsh said he did not intend to enlarge the former Treasury Secretary, the most prominent member of the Montana's candidacy for the Presidential nomination. However, he reviewed the entire financial operation which McAdoo carried on through the Treasury during the World War and declared there had never been a suggestion that they had not been performed with fidelity and integrity.

Recalling then that in Robinson's last address he himself had been the principal target of attack, Walsh said the newspapers had been good enough to give a full measure of credit for the exposing of the oil scandal and the recovery of the oil reserves.

PEOPLE REPAY
"I feel amply repaid for my labors in this regard by the gratitude of the American people, which the Senator from Indiana now would like to snatch away from me," he said.

Holding the floor for nearly three hours, the Montana Senator went over Robinson's speech almost section by section and dwelt particularly upon that part in which the Act of June 4, 1920, was pointed out as evidence of the "conspiracy" in the Wilson administration. He showed that this act was to enable Secretary Daniels to protect the reserves from drainage.

Indian-Land Tax Inquiry Planned

WASHINGTON, April 5. (AP)—The House Indian Affairs Committee has decided to make an inquiry into losses incurred by States in taxes on Indian lands.

A subcommittee was appointed today by Chairman Leavitt, consisting of himself, Representatives William of South Dakota and Englebright of California, Republicans, and Howard of Oklahoma and Morrow of New Mexico, Democrats, to make the study.

It is estimated that loss of tax revenues to the States, specially in the West, amounts to millions of dollars. The investigation was proposed by Representative Howard.

Sacramento Aid Bill Discussed

WASHINGTON, April 5. (AP)—The Curry bill, which asks the government to pay one-third of the cost of flood control in the Sacramento Valley in California came in for discussion today in connection with consideration of Mississippi River flood-control legislation.

Representative Lea, Democrat, California, attempted to have the Curry proposal considered along with the Jones flood-control bill. He was opposed by Representatives Frear, Wisconsin, and Kopp, Iowa. There was no indication as to what action will be taken.

TRAPSHOOT CHAMPION DIES
ROSELLE (N. J.) April 5. (AP)—William J. Simpson, 61 years of age, a three-time holder of the national trapshooting championship, died here today.

TAX BILL MEETS ANOTHER DELAY

Senate Committee Decides to Reopen Hearings

Will Says Democrats' Plan Means Heavy Deficit

Proves That Treasury Figures Are Wrong

WASHINGTON, April 5. (AP)—The Democratic-Democratic battle over the tax bill broke out in all its fury at the capital today while the minority members of the Senate Finance Committee were on their way to a revival of their fight for a revival of the tax bill. The announcement of the Senate Finance Committee's decision to reopen its hearings on the tax bill, which was made last night, was a "renewal" of the fight for a revival of the tax bill. The committee's decision to reopen its hearings on the tax bill, which was made last night, was a "renewal" of the fight for a revival of the tax bill.

SHOOT FENSIMISTIC
Automobile manufacturers and other representatives of the industry have been opposing the tax bill in its contention that a 3 per cent automobile tax would be retained will present their case to the committee first. The bill would raise the tax on automobiles from 1 to 3 per cent. The industry has announced in favor of the bill, which was made last night, was a "renewal" of the fight for a revival of the tax bill.

WHEELS OUTPOKEN
The bill was taken up in the Senate today. The committee's decision to reopen its hearings on the tax bill, which was made last night, was a "renewal" of the fight for a revival of the tax bill. The committee's decision to reopen its hearings on the tax bill, which was made last night, was a "renewal" of the fight for a revival of the tax bill.

ARMY

Personal Comment

Mrs. Mattie E. Agnew

Saville, Calif.—I suffered death
with my back, could not straighten
up to save my life. First I used
one bottle of Dr. Pierce's Golden
Medical Discovery; then one bottle
of the "Favorite Prescription," with
the little laxative, "Pilets," and I
think they are the most wonderful
medicines that I ever took. I have
recommended them to every one I
met suffering.—Mrs. Mattie E.
Agnew, 1736 Butler Ave.

Ask your druggist for Doctor
Pierce's family medicines, in tab-
lets or liquid, or send 10 cents for
a trial package of any of Dr.
Pierce's remedies in tablet form,
to Doctor Pierce's Clinic, in Buf-
falo, N. Y.—Advertisement.

MORE BUILDING GAINS IN SIGHT

Continued Boom Looked for
by Nation's Experts

Signs Point to Current Year
Surpassing 1927

Figures Serve to Contradict
Reports of Decline

BY FREDERICK J. HASKIN
WASHINGTON, April 5. (Ex-
clusive)—A continuation through
1935 of the building boom is ex-
pected by leading experts of the
country. Since last summer, it is
true, several important cities have
experienced slumps in build-
ing activity and particularly in
sales of dwelling houses, but it is
declared, there have been special
local reasons for this. For the
country as a whole there has been
no general falling off and the
present year promises better than
last.

The Department of Commerce
anticipates even the building trade
itself when recently it gave out
figures showing that in 1934 build-
ing contracts awarded exceeded
those in 1933, directly contradict-
ing statements emanating from
various cities that the real estate
and building business was on the
decline.

There are many factors enter-
ing into the picture which make the
building boom promise to be a
continuous one. The chief one is
the concentration of the population
in cities. Now more than
half of the American people live
in cities. But the big cities prin-
cipally are responsible for the con-
tinuous building boom and the
smaller ones are growing into big
cities at a rapid rate, for there
has been no cessation of urban
concentration. In addition, busi-
ness appears to be wound up in a
manner which prevents it from
stopping and so the cities con-
tinue to grow.

MARCH OF BUSINESS
Old residential buildings in down-
town or near-downtown sections
become too valuable to be retained
for residential purposes. Increased
taxation due to increased value of
the land and demand for the space
occupied for the purpose of erecting
office buildings, hotels, hotels, and
stores make for demolition of the
old residences.

Down town property is bound to
be used so long that only a very
rich man can afford to occupy a
non-revenue-producing residence.
The land value rises so that it is
unreasonable to occupy that space
for a four, five or six-story resi-
dence when a twenty-story office
building, paying a large revenue,
can be erected on the site.

This process sends some people
into enormous apartment-houses
with high rentals, or into the sub-
urbs. The experts invite attention
to the circumstance that there is a
limit to a reasonable commuting
distance and, therefore, it is safe
to keep on building up the suburbs,
even if some of the houses remain
unoccupied for certain periods be-
cause the cities are growing so rapidly
that it will not be long before
the suburban land from which the
parent city is accessible will be en-
tirely used up. And when that
happens, another building cycle
must follow.

USE OF AIRPLANE

There is a possibility that the
radius of accessibility will be great-
ly enlarged by the almost general
use of airplanes, but that time is
not yet at hand.

Another big factor, favorable to
a continuous building boom, is the
over-increasing superabundance of
funds with which to finance build-
ing operations. But a short time
ago an amendment to the National
Banking Act permitted national
banks to lend upon real estate.
This amendment released
hundreds of millions for real-estate
financing.

FINDINGS OF EXPERTS
Statisticians and experts who
have been studying the outlook on
behalf of the various real-estate
boards of the country have taken
special note of recent figures
showing that the population
of the country has increased by
more than 10,000,000 persons in the
last eight years. Population in-
crease accretes so the next eight
years will see an even more striking
increase.

The fact that single houses can
be purchased on a small down pay-
ment and carried on the install-
ment plan, and, further, that apart-
ments can be purchased in the same
manner, has made property owning
easier for the public and has con-
tributed to the demand.

These are some of the general
economic and sociological phenom-
ena which are cited to show that
building will continue indefinitely.
The figures on permits to build and
contracts awarded serve to back up
this theory.

**Honeymooners
Face Love Suit**

SAN FRANCISCO, April 5. (Ex-
clusive)—The honeymoon of Frank
J. Hagenbarth, millionaire cattle-
man of Spencer, Ida, Salt Lake
City and Santa Barbara, was rudely
interrupted today at Lake El-
sinore in Southern California when
he was served with papers in the
\$100,000 breach-of-promises suit
brought by Miss Rose Marie Horne
of Los Angeles.

Notification that Hagenbarth had
been served was received here by
Attorney Harry I. Stafford who
represents Miss Horne. According
to the suit filed last week in Su-
perior Court here, Hagenbarth was
engaged to marry her when he mar-
ried another at a society wedding
month in Santa Barbara.

news of the MIDDLE WEST

KANSAS CITY, April 5. (Ex-
clusive)—William H. Cecil, 75 years of
age, veteran Lawrence county pub-
lisher and former postmaster of
Mount Vernon, passed away last
night at the home of his daughter,
Mrs. C. M. Lebow, Somerset Hotel,
920 Cherry street.

Arrangements are almost certain
to be completed for a national radio
opening of the Methodist confer-
ence here in May. Rev. William O.
Hanson, manager of the Methodist
Book Concern and chairman of the
publicity committee for the confer-
ence, said today.

Johnathan G. Miller and J. W.
Monte, former president and vice
president, respectively, of the de-
funct Midwest State Bank of Port
Smith, Kan., were arrested today on
thirty-seven counts charging irregu-
larities in handling the affairs of
the bank, which was closed Febru-
ary 24, 1927.

ST. LOUIS
ST. LOUIS, April 5. (Ex-
clusive)—Walter C. Mayfield, attorney who
lost \$5000 in dealings with Charles
V. Roberts, stock and bond broker
now under indictment on a charge
of using the mails to defraud, hit
and knocked Roberts down yester-
day when he met him on the street.
An aftermath of the great flood
that devastated the Missouri river
in the spring of 1927, destroying
property and preventing the growth
of crops, is reflected in the failure
today of Hunter's Bank of New
Madrid, regarded as one of the
strongest financial institutions in
that part of the State.

Fifteen minutes after the filing of
her divorce petition, Mrs. Helen
Johnson Niedringhaus obtained a
divorce from Irvin Niedringhaus
of 29 Portland Place on the ground
of general indignities. Mrs.
Niedringhaus told the court she had
ample means of support. She was
awarded custody of her three chil-
dren, Marjorie, 20; Irving Lee, 15,
and William F., 8.

DES MOINES
DES MOINES, April 5. (Ex-
clusive)—Following the failure of the prin-
cipal prosecution witness to sub-
stantiate embezzlement charges, the
case against W. H. Barnard, former
president of the Security Loan and
Investment Company, was dismissed
by Judge Shankland.

Dr. J. W. Kline of Fort Dodge,
known for his work in tuberculosis,
has sold his sanatorium there and
will devote his entire time to tuber-
culosis research work, he announces.
The sanatorium will be converted
into a private residence by J. Frank
Wray, the new owner.

Dividends of 35 per cent were
authorized for depositors of the
First National Bank of Nevada,
closed since January 5. This
is the second dividend. The first
one being 25 per cent. The bank
carried deposits of approxi-
mately \$250,000 at the time it closed.
This dividend will amount to ap-
proximately \$37,500.

MINNEAPOLIS
MINNEAPOLIS, April 5. (Ex-
clusive)—Quarterly dividends aggre-
gating 4 per cent on the par value
of the stock of the First National
Bank, an increase of 1 per cent,
were voted by directors of the bank
and of the First Minneapolis Trust
Company. Hereafter, if two-thirds
warrant it, the bank and trust com-
pany will continue to declare quar-
terly dividends of 4 per cent on the
par value of the stock of the First
National Bank, equivalent to 16 per

cent annually. L. E. Wakefield,
president of the bank, and Robert
W. Webb, president of the trust
company, announced.

Julius Rosholt, 73 years of age,
president of the Rosholt Securities
Company, died at his home, 1925
Penn avenue south, following an
illness of several months. Mr. Ros-
holt had lived in Minneapolis since
1908, and during that time he
financed the construction of small
railroads linking with larger lines
throughout the northwest.

DETROIT
DETROIT, April 5. (Ex-
clusive)—Dr. Washington Gardner, 83 years
old, was selected by the Third
Michigan District from 1899 to 1911
and United States Commissioner of
penitents from 1911 to 1929, died at
his home in Albion following a heart
attack. He was Michigan com-
mander of the G.A.R. in 1888 and
national commander in chief in
1913.

Mrs. Winifred Peake Jones, wife
of William O. Jones, president
of the J. H. Jones Sons & Co. de-
partment store of Kalamazoo, died
at her home there following a long
illness. Mrs. Jones was a life-
long resident of Kalamazoo county
and her grandparents were among
the pioneers of the county.

Ludwig L. La Motte, 67 years
old, was selected by the Fifth
Radio District, which includes Cal-
ifornia.

A number of radio experts have
been called to meet with the com-
missioners tomorrow to compare notes
on interpretation of the new Radio
act and the effect it will have on
the different sections of the coun-
try. The new act provides that all

stations must be licensed by the
Federal Radio Commission.

Harold A. La Motte of Salt Lake
City, Utah, could have had the
chairmanship but declined it, giv-
ing out word that he wanted to be
free to devote his entire time and
energy to the problems of the Fifth
Radio District, which includes Cal-
ifornia.

Robinson was appointed recently
by President Coolidge to succeed
Admiral Bullard, deceased chairman.

And while the President did not
specify that Robinson was to be
chairman his selection by the com-
mission for that post followed the
natural logic of political events, in
view of the stiff fight in Congress
against continuation of the commis-
sion and Senate opposition to con-
firmation of members of the com-
mission.

MILWAUKEE
MILWAUKEE, April 5. (Ex-
clusive)—Wisconsin children under 16
years of age, are legally driving
automobiles for the first time in the
history of the Badger State. Farm-
ers contended that their children
had to drive to school and that it
also was necessary for the children
to do work such as hauling milk and
cream and do shopping.

With little Lake Butte Des Morts
clear of ice, rough fishing opera-
tions have started on a major scale
and yesterday a carload of live carp
was shipped to New York markets.
Although this end of Lake Winne-
wego has been clear for a week, the
main body of ice is still to break up.

ST. PAUL
ST. PAUL, April 5. (Ex-
clusive)—A 10 per cent dividend was paid
depositors of the closed Douglas Coun-
ty State Bank of Alexandria by A. J.
Veigel, State Commissioner of
Banks. The dividend amounted to
\$41,125. It makes the total dividend
paid to date 70 per cent, with \$345,-
004 having been mailed to deposi-
tors prior to the latest payment.
The bank closed May 21, 1926.

INDIANAPOLIS
INDIANAPOLIS, April 5. (Ex-
clusive)—William F. Bookhoff, 67 years
of age, founder and president of the
National Automatic Tool Company
of Richmond, and a leader in the
industrial life of that community,
died at the Reid Memorial Hospital
here.

While River was rising rapidly
through Madison county today, fol-
lowing more than two inches of
rainfall in the last twenty-four
hours. Farmers who have sown oats
are fearful of the effect of flooded
fields. Telephone and power lines
had some trouble.

Basis of New Law

HEAD SELECTED BY RADIO BOARD

Commission Reorganizes on
Basis of New Law

Robinson of West Virginia
New Chairman

California to Benefit by
Power Allotments

WASHINGTON, April 5. (Ex-
clusive)—The Federal Radio Com-
mission reorganized today under the
new radio law recently passed by
Congress by electing Ira E. Robin-
son, Republican of West Virginia,
as chairman, and re-electing Eugene
Bykes, Democrat, of Mississippi, as
vice-chairman.

Robinson was appointed recently
by President Coolidge to succeed
Admiral Bullard, deceased chairman.
And while the President did not
specify that Robinson was to be
chairman his selection by the com-
mission for that post followed the
natural logic of political events, in
view of the stiff fight in Congress
against continuation of the commis-

mission for that post followed the
natural logic of political events, in
view of the stiff fight in Congress
against continuation of the commis-
sion and Senate opposition to con-
firmation of members of the com-
mission.

Harold A. La Motte of Salt Lake
City, Utah, could have had the
chairmanship but declined it, giv-
ing out word that he wanted to be
free to devote his entire time and
energy to the problems of the Fifth
Radio District, which includes Cal-
ifornia.

A number of radio experts have
been called to meet with the com-
missioners tomorrow to compare notes
on interpretation of the new Radio
act and the effect it will have on
the different sections of the coun-
try. The new act provides that all

stations must be licensed by the
Federal Radio Commission.

City, Utah, could have had the
chairmanship but declined it, giv-
ing out word that he wanted to be
free to devote his entire time and
energy to the problems of the Fifth
Radio District, which includes Cal-
ifornia.

Robinson was appointed recently
by President Coolidge to succeed
Admiral Bullard, deceased chairman.

And while the President did not
specify that Robinson was to be
chairman his selection by the com-
mission for that post followed the
natural logic of political events, in
view of the stiff fight in Congress
against continuation of the commis-
sion and Senate opposition to con-
firmation of members of the com-
mission.

SUICIDE ENDS DREAM OF FAME

Prosperous Fruit Merchant Risks All to Take Caruso's
Crown, But His Voice Fails to Charm Like Golden
Tenor's So He Seeks Solace in Death

PORT ANGELES (Wash.) April
5. (P)—Joe Masaro, 34 years of age,
who eighteen months ago was a
prosperous fruit merchant here, but
who left to take Enrico Caruso's
place in songdom, is dead. He
hanged himself here yesterday,
leaving a note written in Italian:
"This world is no good for honest
people."

Joe had a fair tenor voice. In
his prosperous candy and fruit
stand here Joe played Caruso re-
cords by the hour. For months after
the great tenor died a customer
kept telling Joe "Now with your
voice you can take Caruso's place."
Joe believed him. Against the
advice of his banker, many busi-
ness men and friends, he sold his
store and went out to save the world
with his voice. He left a fine bank

account behind.
Joe rang door bells of famous the-
atrical impresarios in the East.
Some gave him a hearing; none a
contract. It was the same in Port-
land, San Francisco, Los Angeles
and Culver City. His banker here
could read of Joe's failures because
of the checks that kept draining
the bank account.

When the last penny was gone
Joe stopped writing checks. He re-
turned here some months ago but
not to face his banker or business
friends who gladly would have
financed him for another start in
business. Recently he accepted the
hospitality of Angelo Pacini. He
bade Pacini farewell when the
latter drove out of his garage yester-
day. When Pacini returned last
night he found Joe hanging from a
rafter.

TREASURY ACTS ON TAX APPEALS

Cases Without Hearing on Board

Only Snowed in by Huge Docket

Shows 21,000 Actions Pending

WASHINGTON, April 5. (AP)—The Board of Tax Appeals today announced that it plans a new method of handling the backlog of tax cases pending before it.

The new plan moves cases from the office of the board to the office of the board of tax appeals. The board of tax appeals has been handling more than 21,000 cases pending before it.

The board of tax appeals has been handling more than 21,000 cases pending before it.

Mt. McKinley Flight Planned

ANCHORAGE (Alaska) April 5. (AP)—Having traveled the length of Alaska during recent years by boat, dog team, airplane and afoot, Earl Rosman, scoundrel explorer and naturalist, plans to fly over Mt. McKinley, the highest peak in North America.

He plans to fly the 150 miles from Anchorage, circumnavigate the 20,000-foot peak, and return without landing. He will be prepared, however, to walk back in case he is forced down. Rosman intends to take photographs from the mountain's higher altitudes at close range, a feat heretofore unaccomplished. The attempt is to be made as soon as weather permits.

BOND DECISION REVIEW DENIED

State Supreme Court Lets Tax Ruling Stand

Assessors May Set Rate on Foreign Securities

Action Refused in Appeal of Los Angeles Woman

SAN FRANCISCO, April 5. (Exclusive)—The State Supreme Court today refused a rehearing of its recent decision holding unconstitutional all methods of taxing stocks and bonds of foreign corporations and intangible securities on any basis other than that of the ad valorem method in effect prior to 1925.

The result is to place within the discretion of county assessors the rate at which securities will be taxed, a prerogative of the old law already assumed by them with the accompanying announcement that they will not inflict a burden upon the holders of the so-called foreign securities.

Specifically, the court's action was denial of the appeal of Mrs. Dorothy Arnold of Los Angeles, who brought the suit in a friendly action against E. W. Hopkins, Los Angeles County Assessor, for the original purpose of getting a ruling of the validity of an amendment passed in 1927 taxing securities at the rate of \$1.45 per \$100 of valuation.

The court held with Mrs. Arnold that the 1927 amendment was unconstitutional, but held, at the same time, that the law preceding it, passed in 1925 and making taxation at the rate of 7 per cent of face value, also was invalid. She appealed for a rehearing of the two-fold decision with today's result.

Prince Sticks on 'orse and Wins Cup Race

NOTTINGHAM (Eng.) April 5. (AP)—The Prince of Wales, who has been suffering a series of mishaps in his last two appearances in the racing field, today broke through with a victory, capturing the royal naval hunt cup point-to-point steeplechase at Oxon by twenty lengths.

Today's victory was with Miss Muffet, the game little mare which has carried the Prince in many races. On Monday Miss Muffet fell twice in a steeplechase at Hawthorne, the second time being so badly wounded that it was several minutes before she got up.

Tuesday night the Prince appeared at a "sing song" in the People's Palace in the east end of London with his right thumb bandaged, the injury being received in one of his recent falls.

PARDON STATUS SURVEY MADE

Ninety Convicts Complete Applications

Twenty Slayers Plead for Commutation

Nine Held in Prison Under Death Sentence

SACRAMENTO, April 5. (AP)—An accurate and comprehensive record of all applications for executive clemency pending before Gov. Young, together with all pardons and commutations granted and capital sentences executed since Young became Governor, has been compiled by Keith Carlin, executive secretary to the Governor.

There are pending applications for pardons have been referred by Gov. Young to the advisory pardon board.

Only two pardons and three commutations have been granted thus far. Seven murderers have been executed and there are nine under sentence of death in Folsom and San Quentin prisons. Three are on appeal.

10,000,000 Tires

The experience behind Goodyear Tires made in Los Angeles

NUMBER 10,000,000 is coming through!

The word ran from man to man throughout the factory, and to everyone who heard it, it carried a thrill of pride.

Ten million tires is a milestone in the growth of any factory.

It is by far the greatest total tire production in the West.

Here as it is, to those who have made it possible—the motorists of the West—it is much more than a production figure.

It is a monument to the quality of these Goodyear tires made in Los Angeles for the West.

It represents the uniform satisfaction which these

Goodyear Tires give, in long, economical mileage, in safe, positive traction, in dependable, trouble-free service.

And to every motorist buying a Goodyear Tire today it means this tire made in Los Angeles carries, built into its casing fabric, its sidewalls and its tread, the values of an experience duplicated in no other tire except another Goodyear.

The lessons learned in building these 10,000,000 tires are not for sale—could not be bought for any money—but at no greater cost than you are asked to pay for ordinary tires you can have the results of this experience in "The World's Greatest Tire."

THE WORLD'S GREATEST TIRE

Until this new-type All-Weather Tread Goodyear, you never saw a quiet, smooth-running balloon tire with satisfactory traction. Safe, surefooted, skidless, this tire has in its tread's center sharp-edged diamond-shaped blocks which catch, grip and hang-on.

Until the coming of SUPERWEAVE cords, casing fabric and shoulder break were the arch-foes of balloon tire performance. Since Goodyear developed this amazingly elastic and durable material these troubles have virtually disappeared.

Until now "cupping" and "hot holes" were characteristic of tread wear in balloons. The specially designed new-type All-Weather Goodyear Tread meets this issue squarely and leaves long, slow, even wear.

These are not imagined benefits. They are tested and proved, proceeding directly from the new-type tread with its heavily ribbed All-Weather pattern, and the stout and springy SUPERWEAVE cords of which the casing is made.

MOTHER EARTH SLIPPING

Frequently Revolutes Astronomer Declares But That Need Not Worry of Present Generation

Sun Will Continue to Shine on Time, Brown Says

PARADISE, April 5.—Earth is less steady than it is, according to Prof. Brown, occupant of the chair of mathematics at the University of California, Berkeley, who is a guest here at the Crow Hotel.

"Astronomers noticed that sometimes the earth's axis is at a more rapid rate than usual," the mathematician said. "It is not that the earth is wobbling, but that it is wobbling at a more rapid rate than usual."

He stated that the wobbling is not a new phenomenon, but that it has been going on for a long time. "The wobbling is not a new phenomenon, but that it has been going on for a long time."

He stated that the wobbling is not a new phenomenon, but that it has been going on for a long time. "The wobbling is not a new phenomenon, but that it has been going on for a long time."

WALL STREET PARAGRAPHS

(Copyright, 1928, New York Times, Inc.)

NEW YORK, April 5.—Refreshed by his first long rest General Motors stepped into the leadership of the industrial list with renewed vigor. The manner in which it responded to the resumption of bull activity indicated that a rather substantial short interest had been built up in recent reaction from the record high of a fortnight ago.

Nothing new has happened likely to influence sentiment toward the issue, but time is drawing near for the publication of its first-quarter results and the dividend meeting of directors is now only a few days distant.

Schulte-Park and Tiffed. Brief demand for the shares of both Park and Tiffed and Schulte-Park was the subject of a good deal of conjecture in speculative quarters. Both stocks rose sharply to new record levels with the initial transaction in the latter involving a block of 10,000 shares.

As both stocks were moving upward, reports were received around of possible negotiations looking toward a deal between the two companies.

Amoco Copper. Not the least interesting feature of the day was the continued buying of Amoco Copper Mining. This stock has long been a "lead performer" but of late has been reduced to a position of persistent buying. One of the largest of the red metal companies, it has a substantial interest in many of the country's leading corporations including Chile, Greene Cananea and the Andes Copper Company. Talk of an increase in the price of copper has accompanied the steady rise in the shares.

London Daily Radio. (Copyright, 1928, New York Times, Inc.)

LONDON, April 5. (By wireless) Market conditions are good today on the eve of the Easter holidays, except in rubber and rubber shares, which were still feeling the effect of Prime Minister Baldwin's announcement.

The commodity has fallen to 1-16, the lowest since 1922. Rubber shares were flat, although most newspapers have taken a moderately cheerful view of the situation, some almost professing pleasure at the return to a natural as opposed to artificial condition. Trouble is expected, however, in connection with the small and weaker rubber companies.

Investments were strong and British funds were virtually at their highest peak since the war. Amoco Industrial Organisms were good.

Pacific Electric Earnings Jump. Net operating income of the Pacific Electric Railway Company for the year ended December 31, last, amounted to \$2,149,421.31 after taxes, as compared with \$1,863,161.35 for 1926, an increase of \$286,259.96 or more than 15 per cent, according to the statement filed yesterday with the Railroad Commission.

Total corporate income available for fixed charges, dividends, etc., increased \$478,003.97, or approximately 21 per cent, to \$2,240,979.89 for the year. Operating revenue aggregated \$19,414,541.42 and in 1926 \$18,111,164.16. Operating expenses declined from \$16,404,651.28 in 1926 to \$15,561,494.84 for the past year. Taxes amounted to \$1,113,662.27 and in 1926 were \$1,143,351.33.

LECTURES SCHEDULED. Aviation Class To Hear Talks By Transport Chief. Featuring an address by Maj. C. O. Mosely, vice-president of Western Air Express, on "Theory of Flight and Training Personnel" the class in commercial aviation at the University College of the University of Southern California will hold its organization meeting this evening at 7 o'clock in the Transportation Building, with Earl W. Hill presiding.

Additional commerce classes in which registration will close this evening at the University College are: "Theoretical and Practical Navigation," headed by Capt. J. Janney; "Commercial Correspondence," in charge of E. L. Oliver; advertising copy, conducted by E. L. Oliver; and real estate correspondence, in charge of George A. Schneider.

OIL PROFITS TO IMPROVE

Union Statement for First Quarter, Due Today, Will Show Trend; Position of Industry Stronger

BY EARLE E. CROWE. What the California oil companies have done in the first quarter of the year will be fairly well outlined after a study of the Union Oil quarterly earnings statement, which is scheduled for release today. The union statements, invariably the first to appear on the Pacific Coast, usually are a dependable weather vane for the rest of the industry.

In the first quarter of 1927, Union Oil reported earnings of \$2,500,000 after all charges, including depreciation, depletion and drilling expenses, equivalent to 65 cents a share. No intimation has been given of the figures for the first quarter of this year, but everything points to a more satisfactory statement. Unless the Union management bears down too heavily on the charges for depreciation, etc., the report should conservatively reflect the improved status of the industry on this coast.

DIVIDEND SCHEDULED. Directors will also meet today, it is understood, for action on the quarterly dividend. While the stock has been strong in the market lately, there is not a general expectation for an increase to the regular rate of 30 cents a share, or for the declaration of an extra.

Most of the California companies will probably turn out better statements for the first quarter of 1928 than for the same period of last year. The gasoline price level is one leading reason. Last year about this time the retail price, tax included, hit a low of 12-1/2 cents, declining 6 cents throughout the quarter from a high of 18-1/2 cents. Now the price is 20-1/2, or actually 1 cent higher than the high for the first quarter of last year, taking into account the 3-cent State tax now in effect.

With the advantage of this 1-cent increase operating throughout the entire quarter and with the normal increase in consumption that probably took place in the quarter, the gasoline operations should at least show a larger profit than in the first quarter of 1927. Moreover, there is no indication of a resumption of price difficulties over the sensitive question of international.

TRUCKS DISAPPEARED. On April 1 the contracts expired which called for sale of gasoline to independent dealers at a differential of 6 cents under the wholesale price. The two or three companies making these contracts have renewed on a 4-cent basis so far, it is understood, which eliminates the possibility of another price war similar to the one that raged in the first quarter of last year.

Additional foundation for assurance of a stronger earnings position in succeeding quarters is found in the progress the companies are making in the shutting in of heavy oil. Last Sunday between 30,000 and 40,000 barrels of heavy oil were shut in by operators in the San Joaquin Valley fields. Of this amount the Standard Oil Company is credited with about 8,000 barrels.

Rumors continue to circulate of an early advance in light oil, followed by a rise in gasoline prices. The basis for the belief of a crude oil advance is traced to the steady withdrawal of light oil from storage.

COTTON MARKET. NEW YORK, April 5. (Exclusive) Today's cotton market revealed scattered local liquidation and southern selling during the forenoon, left over from yesterday's selling movement in evening up excess speculative holdings over the triple holiday, the exchanges here and at New Orleans being closed by a new Orleans until Monday.

There was enough new trade buying to absorb the pressure and hold the early decline within 8 to 6 points of yesterday's final price, May selling at 15-1/2 cents; July 15-1/2 cents; October of the new crop about 18 7-8 cents and December, 18 7-8 cents. Some of this selling was influenced by reports of good showers of a much-needed character in Central and Southern Texas, Dallas reporting 2 inches.

In the afternoon prices were gradually advanced 8 and 10 points on yesterday's closing. On the rally May went to 19 3-8 cents; July, 19 3-8 cents; October, 19 3-8 cents and December, 18 3-8 cents.

At Liverpool cotton futures declined 3 points in the early trading, but closed steadier at a net decline of 1 to 3 on the day.

SEAT SALE SETS NEW HIGH PRICE

Two Local Memberships Sold for \$50,000 Represents Gain of \$30,000 in Three Months

Sales Approved by Board of Governors

Sale of two seats on the Los Angeles Stock Exchange at a new record price of \$50,000 was approved yesterday at a meeting of the board of governors of the exchange, the board announced yesterday. Confirmation of the sales is subject to election by members.

Since the first of the year, value of memberships has increased from \$20,000 to \$50,000, representing a gain of \$30,000 in three months. The last sale which was consummated about two weeks ago, resulted in a record for that time, at \$40,000, which followed a sale two weeks previous at \$35,000. Last year ten seats were sold.

Comparison, the San Francisco Stock Exchange recently announced a seat sale at \$125,000. This was the first sale since November last, which was reported at \$120,000, a gain of \$5,000. The New York Curb and New York Stock Exchange are the only other two markets with higher memberships.

These transactions boost the aggregate market value of the seven-year memberships of the exchange from \$2,000,000 to \$2,500,000, an increase of \$500,000 in less than two weeks.

During the first three months of this year, each consecutive month has established a new record for volume of sales. In the first three months, bonds were in excess of \$40,000,000. For the month of March, total sales aggregated \$7,540,000.

Goodyear Holds Annual Meeting. Stockholders of the Goodyear Tire and Rubber Company of California at the annual meeting held yesterday elected C. Slusser, vice-president of the Goodyear Tire and Rubber Company of Akron, a member of the board of directors to succeed Frank K. Egan, who resigned. No other change in the directorate or officers was made. Other directors of the company include P. W. Litchfield, E. J. J. Young, H. J. Young, J. K. Hough and H. F. Stewart.

California Consumers Company

First Mortgage and First Lien 20-year 6% Gold Bonds

Dated April 2, 1928

Due April 1, 1948

California Consumers Company was incorporated to acquire and operate the businesses of the following companies: Los Angeles Ice and Cold Storage Co., Pasadena Ice Co., Citizens Independent Ice Co., Globe Ice Cream Co. and Beverly-Globe Ice Co.

Such companies are engaged in the cold storage, ice manufacturing, refrigeration, ice cream and distilled water businesses, owning and operating nine ice manufacturing plants and four cold storage plants. Distilled water is distributed under the well-known name of "Furita" to over 60,000 customers, making that unit one of the largest distributors of distilled water in the country. Ice cream of high quality is sold under the trade name of "Globe Ice Cream."

The territory served has a population of over 1,750,000 and includes the cities of Los Angeles, Beverly Hills, Santa Monica, Pasadena, Pomona, Alhambra and numerous other municipalities. The companies deal in commodities and services necessary or essential to the large population served.

Consolidated net earnings for the year ended December 31, 1927, as reported by Barrow, Wade, Guthrie & Co., Certified Public Accountants, were \$710,685.25 which is 2.15 times the annual interest requirements of these bonds.

NEW YORK BOND PRICES

NEW YORK, April 5. (AP)—New York traction bonds were in the lead of a general advance on the bond market today. Trading was moderately active. A slight tightening of time-money rates apparently had no effect on buying of high-grade issues, which probably reflected further reinvestment of quarter-end disbursements.

The \$55,000,000 Denmark 4½s offered today was reported promptly oversubscribed, which had a stimulating effect on some of the securities of that country. Copenhagen City is dropped back about a point on realizing. Other foreign obligations were irregular with profit taking in municipal issues which have been advancing in recent sessions.

Interborough Rapid Transit issues advanced 1 to more than 2 points in new high territory, still responding to the movement of the city to take over the lines. Manhattan Railway and New York City Railway issues also attained new high levels.

Delaware and Hudson convertible bonds responded to strength of the stock and there was good demand for Chicago and Alton 3½s, which sold at their best prices of the year. Hudson and Manhattan 4s and International Great Northern adjustment 4s also received good support. Copper bonds again led in advance, particularly American 7s, which advanced 2 1-8 to 128 5-8, the highest on record. Andes 7s were under pressure. Simms Petroleum 6s had a point and some oils were slightly lower on realizing after the recent steady advance.

United States government securities failed to follow a definite trend. As part of a refunding operation, \$10,000,000 debenture 5s of the International Cement Corporation will be offered shortly.

The conditions of the sale of bonds in the market of today and the high level of the stock market, the low level of the bond market and the low level of the stock market.

LOS ANGELES EXCHANGE

Richfield, on Heavy Demand, Leads Oil Stocks Into New Record Territory

Richfield Oil, selling ex-dividend yesterday, was the outstanding leader on the Los Angeles Stock Exchange on a jump of 3½ points to a new high of 29½. More than 20,000 shares of this issue alone changed hands. Other oil stocks recorded advances and the banking division improved substantially. Pacific Clay products established a new high at 34, up ¼, and Shell Union, Gilmore and Standard of California, each moved into record territory.

Richfield preferred stock advanced 3 points for a new peak at 23, also selling ex-dividend. Standard Oil of California moved up 3-4 points to a new top of 28. Shell Union sold to a record of 27 1-4 on a gain of 1-4 point. Gilmore added 1 for a new high at 7. Union Oil and Union Associates advanced 1-2 and 1 point to 51 and 50 1-2, respectively. The former stock is at top price.

Los Angeles-First National led the bank list with a gain of 3 1-4 points to close at 127 1-4 and earlier in the day touched 129 3-4. Mer-

chants National advanced 1 1-2 points to 169 and California Bank dropped 9 to 168. Security Trust and Savings moved up 7 points to 223. Bank of Italy fell off 1 to 222, while Bancitaly advanced 1 3-4 to 191.

Pan American Western was in demand in the unlisted division, and moved up 3-4 to 24 3-4, just 1-4 below its record price made recently. Zellerbach Paper slumped 1-4 to 48 1-3 and Electrical Products the same amount to 120 3-4.

Stock transfers totaled 126,979 shares. Bond transactions amounted to \$12,520.

These 22 Features Contribute Substantial Protection

for your investment in this First Mortgage and First Lien 20-year 6% Gold Bond

BUSINESS

1. An economic consolidation of successful, well-established companies.
2. Essential or necessary diversified products and services enjoying increased demand.
3. Operating in territory with 1,750,000 people—in many growing communities.
4. Nature of products and services adapted to selling and distributing by several plants.

EARNINGS

5. Net earnings 3.15 times bond interest requirements.
6. Increased profits thru economies resulting from consolidation.
7. Larger volume of business thru organized and co-operative selling.

SECURITY

8. First mortgage representing approximately 33% of pledged properties.
9. First lien on substantially all outstanding stock of subsidiaries.
10. Total consolidated net assets available for bonds, exclusive of franchises and good will, over twice bond issue.
11. Land alone appraised at 70% of bond issue.
12. Increasing value of properties strategically located—adapted to other industrial and commercial uses.
13. Sinking fund to retire about 30% of bonds by maturity, thus constantly increasing security for the bonds.
14. This issue, upon completion of financing, is only funded debt of Company outstanding in the hands of the public.

INDUSTRY

15. Partly engaged in Nation's ninth largest industry.
16. An industry showing an increased rate of growth.
17. Opportunities for more customers and greater per capita consumption.
18. Minimum of inventory and extension of credit.
19. Minimum skilled labor required for production.
20. Production quickly increased or decreased to meet seasonal demands.
21. Industry, according to authorities, is on threshold of a period similar to light and power industry, fifteen or twenty years ago.

MANAGEMENT

22. Under supervision of the United States Engineering Corporation, which is composed of an experienced and nationally known personnel, who have successfully demonstrated their ability.

We recommend the California Consumers Company's First Mortgage and First Lien 20-year 6% Gold Bonds, which embody these features.

STOCKS RESUME
UPWARD SWEEP

(Continued from Thirteenth Page)

ing, Pittsburgh and West Virginia was again the spectacular performer in the rail group, soaring nearly 11 points to a new top at 154 7/8. Baltimore & Ohio, Reading, Walcott, Texas-Pacific and Western Maryland common and second preferred also reached new high ground.

Time money and bankers' acceptance rates were slightly firmer. Foreign exchanges moved within narrow and irregular limits with sterling cables quoted around 94.85-86.

Commodity markets were mixed. Grain futures declined a cent or so on a bushel on selling impetus by reports of rain in Southwestern. Rubber rubber about 2 cents a pound to new low levels since 1924 but recovered most of the loss. Coffee prices were firmer and coffee and sugar quotations eased slightly.

PRODUCE MARKET

(By U. S. Bureau of Markets)

Trade was generally only moderate. Local markets were quiet. The following are the closing prices for the week ending April 5, 1935:

APPLES—Northern, Yellow Newtown, 100 lbs. \$2.00; Green, 100 lbs. \$1.75; Red, 100 lbs. \$1.50; Washington, 100 lbs. \$1.25; Gravenstein, 100 lbs. \$1.00; Empire, 100 lbs. \$0.75; Red Delicious, 100 lbs. \$0.50; Golden Delicious, 100 lbs. \$0.25; Fuji, 100 lbs. \$0.10.

MUNDIALES
MA HORA

una fiesta de estudio del español en
esta gran metrópoli. En la misma
señala la importancia de la lengua
española en el mundo. La fiesta
será una gran oportunidad para
los estudiantes de español de esta
ciudad.

JOSE JUAN CRESPO
español de este distrito.

(The soldiers at the general's
would not let him go in.)

NO marketing
worries at
Fontana

WHEN you move to the
income-producing area of
Fontana, you benefit from a
market for your produce and
fruit and walnuts.

Eggs are picked up at your
door twice a week and mar-
keted under the famous
Brookfield brand through
Swift & Co. at quality prices.
You are paid for your eggs

NEWS TO SERVE
FIVE-YEAR TERM

Years of Promoter's
Sentence Suspended

His aide, Maj. Kramer, Gets
Year in Prison

Indicates He Will
Not Take Appeal

U. S. Lewis, in the wake of whose
promotional enterprises, during a period of thirty years,
has shown the knowledge of thou-
sands of men, large and small,
at the end of the trail, his
aid in escape punishment admit-
tedly admitted.

Standing before United States
Judge McCormick he heard
a sentence of fifteen years passed
upon him, eight of which were
suspended. He indicated that there
was to be no appeal.

The man who, with Maj. Henry
Kramer, an associate in many
of his projects and manager of his
promotional enterprises, was con-
victed in the last District Court
of the charge of using the mails
to defraud in connection with a
promotional campaign, in which
he was aided by investors in
the promise that they would
be paid from oil-drilling
operations in the Alaskan
territory.

His sentence was passed by
Judge McCormick, who had
previously sentenced Kramer to
three years in prison on a charge
of conspiracy.

CITY NEWS—EDITORIAL—SOCIETY—THE DRAMA

COUNTY BOARD
CLEARS MACKAY

Keyes Aide Exonerated by
Civil Service Body

Holds That Evidence Failed
to Sustain Charges

Conduct of Three Cases is
Considered at Hearing

Stating that, in their judgment,
the evidence adduced failed to sus-
tain the allegations, the members
of the County Civil Service Com-
mission yesterday cleared Chief
Trial Deputy District Attorney
MacKay of charges of inefficiency
and corruption in connection with
his handling of three felony cases
against L. D. Allen, Frank W. Zeah
and H. J. Kimmerle, and denied
the demand of the complainant,
Albert O. Ramsey, that MacKay be
dismissed.

No evidence of corruption was in-
troduced in connection with these
cases. In the Allen case, where
MacKay made a motion for dis-
missal, Gilmore Goodland and his
wife, who were victimized to the
extent of \$4000, testified they signed
releases to the civil obligation after
MacKay had told them the case
against Allen had been dismissed.
According to the records, the case
was dismissed seventeen days after
the releases were given. No evi-
dence was introduced to controvert
the chronology as presented by the
Goodlands. MacKay made his motion
for dismissal on the grounds
of insufficient evidence, as well as
the satisfaction of civil obligation.

LEGAL ARGUMENTS
Detailed legal arguments were
advanced as to MacKay's action in
changing the charge against Zeah
from manslaughter to a rental-code
case.

Chosen out of eighty American
college students, Chester S. Wil-
liams, a junior at the University of
California at Los Angeles, will be
the only representative of the Pacific
Coast at the World Peace Con-
ference of 1928, which will be held
in Holland from August 17 to 26.

Applicants for attendance were
required to present an outline of
the main points of ten different
international problems, and to cite
authorities on some international is-
sues.

Candidates were chosen accord-
ing to their understanding and grasp
of international affairs, and the
possibility of their working to-
ward peaceful international rela-
tions.

The theme of the conference, ac-
cording to Williams, is the study of
the causes of war and the effects
of conflict and co-operation on inter-
national relations.

Police last night arrested Norman
Trevor, well known in motion-
picture and stage productions as a
character man and heavy, and
booked him on a charge of issuing
checks without having sufficient
funds in the bank with which to
cover.

Trevor gave his age as 50 and
his address as 506 Linden Drive,
Beverly Hills. He was arrested at
the Beverly Hills Hotel. Police
state that he issued a check to a
downtown haberdasher in the
amount of \$48.50 which was not
honored at the bank.

According to Detective Lieuten-
ants Foster and Crowley of the
bad-check detail, Trevor also de-
posited \$200 in the Hollywood
branch of the Bank of Italy and
then issued checks against this ac-
count exceeding the amount on de-
posit.

ASSESSMENTS UP TODAY
Consideration will be given by
the Council this morning to the
assessments for the widening and
extending of Flower Drive from
Thirty-seventh Place to Thirty-
eighth street.

Reversing the previous ruling of a fellow-magistrate, Municipal Judge
Wilson yesterday held constitutional the ordinance granting exclusive
stand rights to certain taxicab companies under permit of the Board of
Public Utilities and convicted eleven drivers for violating the ordinance.

The decision came after three hours' argument by opposing
counsel—Attorney Charles W. Crad-
dock for the independent taxicab
companies, against Chief Deputy
City Prosecutor Concanon and
Deputy City Attorneys Ronnow and
Kittmiller.

Ten of the drivers employed by
three companies, the California Cab
Company, Diamond Cab Company
and Yellow Cab Company, were
fined \$25 or ten days each, which
were suspended with the provision
they refrain from parking in other
stand rights pending an appeal to
the Superior Court.

A straight sentence of 25 or ten
days was imposed on the eleventh
defendant, Orville Graham in or-
der that Attorney Cradlock might
have grounds to appeal. A stay of

section. Superior Judge Pricke
said he believed this section was
superfluous, and ordered the infor-
mation amended to charge man-
slaughter and the defendant was
convicted. It was charged that
MacKay made this change to bene-
fit Zeah, a client of Howell W.
Richardson, who also defended Al-
len and Kimmerle, but the discus-
sion wandered off into the abstract
legal question of the relative weight
of the two laws.

As to Kimmerle, it was charged
that MacKay had exercised undue
influence on former Dep. Dist.
Atty. Ryan to lessen the charge
against the defendant. The de-
fense explained by testimony that
MacKay had changed the commit-
ment in the Zeah case in order to give
the judge wider discretion in the sen-
tencing of the conviction. MacKay
used this as an example:

"We now have in the office the
case of a man who forged a fic-
titious name to a \$20 check. He
has been convicted before, and as
he is now charged with forgery,
in the event of conviction he will
receive a sentence of fourteen years.
We are working out a plan to ad-
dress charges whereby the inter-
ests of justice will be served if he
gets a year in the County Jail."
MacKay entered from the stand

against the defendant. The de-
fense explained by testimony that
MacKay had changed the commit-
ment in the Zeah case in order to give
the judge wider discretion in the sen-
tencing of the conviction. MacKay
used this as an example:

PRESSURE TESTS SPECTACULAR

Water Easily Pumped to City Hall Top

Los Angeles Is a High Pressure City. The Fire Department proved this yesterday by forcing
water from the street level, beyond the tower of the City Hall—more than 500 feet

Proof of Fire-Fighting Efficiency Shown by Department
Demonstrating that the city fire department can deliver water
in fire-fighting amounts and under high pressure to the top of
the highest building in Los Angeles, four streams of water were played
yesterday on top of the new City Hall, two from hose on the twenty-eighth
floor and two from the top, fifty-feet higher.

Four engines stationed on the Main-street side of the building, each
placing the water at that level under a pressure of 350 pounds, pumped
the water into the stand-pipe in the City Hall. It left the nozzles under
a pressure of 100 pounds.

Some persons have expressed a doubt that the fire department
can deliver water under high-pressure to this height, said Assistant
Chief McDowell. "The demonstration speaks for itself."

RIGHTHEARTED MAN FOUND

Angeleno's Physiological Complex Presents Study of
Rare Interest to Medical Science

Discovery that his heart apparently has been on the right side of his
body since birth yesterday drew the attention of medical scientists to
Jose L. Navarro, 21-year-old Angeleno. The case is declared to be very
rare in the fact that the subject was born with the inverted organ.

Four instances of the heart being on the right side brought to the at-
tention heretofore generally were caused by illness and adhesions that drew
a normal heart from its proper place on the left side.

Navarro's physical history is said
to be further unique in the fact
that all his other organs are in
the proper place and that he suf-
fers from no illness or distress from
the misplaced heart.

RARE CONDITION
Dr. Fred Lindenberg, graduate
surgeon of Berlin (Germany) Uni-
versity, now practicing here, who
looked at Navarro's case, de-
clares the condition, known as
"dextrocardia," or "righthearted-
ness," is very rare and an estimate
had been made that among 60,000
people in Germany there were only
fifteen such cases.

The exact position of Navarro's
heart was determined by X-rays
taken at Dr. Karl Bonhoff's X-ray
institute here. The picture re-
produced showed the heart shadow ex-
tended from the middle toward the
right side of the chest. Dr. Lind-
enberg placed Navarro's case on an
equal plane of interest with that
of a young girl recently seized with
acute abdominal pains in her left
side.

ORGANS REVERSED
An operation at the University
Hospital here showed Dr. Lind-
enberg that her appendix was on the
left side in an acute condition, the
gall bladder on the left and the
spleen on the right, with all the in-
testinal organs reversed from their
normal position.

Despite his heart's position, young
Navarro, who lives at 4419 South
Figueras street, declares that he has
never caused him any trouble. Un-
der exertion palpitation of the or-
gan are clearly discernable under
the lower right-hand rib. Navarro,
who is a graduate of the Armour
Institute of Technology at Chicago,
has been advised to offer himself
as a study to medical scientists.

Sneak Thief
Robs Beery
of \$100,000

Wallace Beery, film actor, lost be-
tween \$80,000 and \$100,000 in neg-
otiable checks, stocks and bonds yester-
day when a thief broke in to his portable
dressing-room at the motion-
picture studio where he is
working, according to
Beery's report to
Hollywood police yesterday
afternoon.

According to
Beery, he went to
his dressing-room
early yesterday
and withdrew
223 shares of
various stocks with certified
and dividend checks. Returning to
the studio he left the fortune in a coat
pocket when he changed clothes in
his portable dressing-room. This
was shortly after 10 a.m.

Returning at noon the actor found
the side window of the dressing-
room broken open and the papers
missing.

In his report Beery listed the
following losses: Certificates repre-
senting 100, eighty-five, seventeen
and twenty-one shares each of
Bancitaly stock; three gold certifi-
cates of \$1000 each of the Guar-
antee Building and Loan Association;
one certificate of two shares, for
\$4000 of the Hollywood Rice Grow-
ers' Association; certified check for
\$1500 to the Guarantee Building and
Loan Association; \$500 in Bancitaly
dividend checks, and other negoti-
able securities.

Beery refused to divulge why he
was carrying such a large sum of
money, declaring that he is "not
able to make the matter public at
this time."

SEVEN ATTACK
REPORT ON DAM

Inquest Witnesses Refute
Theory of Collapse

Earth Movement Fixed by
First Surveyor

Del Valle Tells Confidence in
Muholland

Through the testimony of seven
witnesses Municipal Water Bureau
attorneys yesterday attacked various
portions of the St. Francis dam fail-
ure report presented to the Cor-
oner's inquest Wednesday by the dis-
aster inquiry board appointed by
Dist. Atty. Keyes.

That board attributed the fail-
ure of the dam to softening and
washing away of earth under the
dam foundation, so that a large
hole was made over which the
then-briged foundation collapsed.

The report declared that during
the few hours just prior to the col-
lapse, near midnight, an enormous
quantity of water began rushing out
of the reservoir and continued until
substantial parts of underlying
earth were washed away causing
the west end to collapse, thus pre-
cipitating the disaster.

SAW NO WATER
Ace Hopewell, an employee at Mu-
nicipal Power Station No. 1, about
seven miles up San Francisco
Canyon from the dam, testified he
rode along the road by the stream
bed past the dam between 11:30
and 12 o'clock on the night of the
catastrophe and that he saw no
water beneath the usual very small
stream coursing down the canyon
from the dam.

Further supporting the bureau
theory that the break was sudden
and entirely unheralded, he testi-
fied that about ten or fifteen min-
utes after he passed the dam, he
heard a rumble and stopped his
motorcycle. He said he was up the
mountain road about a mile and
half from the dam. He said he
heard nothing further and rode on,
attributing the noise to nervousness
and to his motorcycle.

Elmer Steen, another employee at
No. 1, drove down the canyon past
the dam at about 11:35 p.m. that
night, crossing the stream bed, and
testified that there was no unusual
amount of water coming from the
reservoir. Similarly, Harry Silvay,
another No. 1 employee, testified he
was along the stream bed at about
9 p.m., went near the dam and saw
no evidence of escaping water.

NOTHING UNUSUAL
He said he talked over the tele-
phone with Louis Barnes, a fellow
employee in power station No. 2, at
11:47 p.m. and that Barnes made
no mention of anything unusual below
the dam.

Charles H. Lee, a San Francisco
consulting engineer and formerly
head of two State water depart-
ments, testified that had there been
any such escape of water from the
reservoir as described by the in-
quiry board, the water would have
appeared in the stream bed.

Folsom Felons' Feud with Convict Father Develops Kidnaping Clew

SPITE THEORY GETS CREDENCE

Prisoners' Threats Give New Motive

Police Drag Park Lake in Futile Hunt

Witnesses Multiply Story of "Foreign Men"

Infatred breed within prison walls yesterday served the police with a clew by which they hope to penetrate the veil of mystery surrounding the strange disappearance of Walter Collins, 9 years of age, who has been missing from his home at 217 North Avenue 22 since March 10, last.

While the clew from Folsom prison, where the boy's father, Walter J. Collins, is serving time for robbery was being run down the police yesterday dragged the lake at Lincoln Park near which the boy was last seen but their efforts brought them no nearer to the solution of the disappearance.

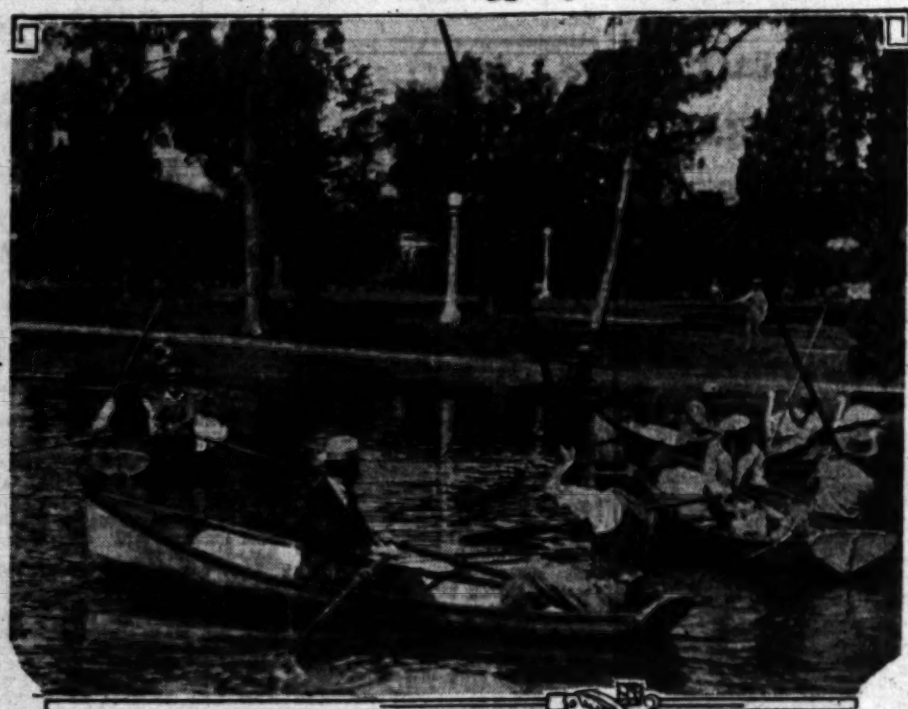

SEARCH STATE-WIDE
Every possible clew is being worked. Private police have joined the search in Los Angeles and every department in Southern California has been alerted. San Francisco police became active when some of the clews pointed to that city.

Yesterday the police received a letter from the imprisoned father. The contents of the missive were not revealed but Capt. Jones and Detective Lieutenants Hanson and Lester heading the search placed considerable faith in Collins' assertion that his son may have been taken and possibly murdered by former inmates of the prison whose animosity he incurred.

PRISON ENMITY CLEW
Folsom records show that Collins is a "bore" in the prison mess hall and in his line of duty he has been forced on several occasions to report some of the convicts to the warden for infraction of rules. Several times, police say, threats of revenge against Collins have been made.

Interest in the Collins case widened several days ago when a newspaper station keeper at Glendale reported seeing the apparently lifeless body of a boy answering Walter Collins' description wrapped in newspapers lying in the rear of an au-

Lincoln Park Lake Dragged for Boy's Body

Pool Depths Fail to Disclose Missing Child
Capt. Jones of the police department with other members of the department, was frustrated in his effort to solve the disappearance of Walter Collins, 9 years of age, mysteriously missing and believed kidnaped, when he thoroughly searched the silent waters of the park for the boy's corpse. The failure lends hope that Walter still lives.

tomobile. Efforts to trace the car in which the body was seen have been fruitless.

GLIMPSE BODY
The service-station keeper reported that a "foreign-looking" man and woman drove into his place, inquiring the way to the Glendale police station. As he directed them, they drove away, he said, he glimpsed what appeared to be a boy's body, wrapped in newspapers with the head protruding. The couple was followed by others at the service station. Arriving at the police station the pair hesitated a few moments as if undecided as to what to do. Suddenly the car was thrown in gear and sped away. It has not been seen since.

The boy's mother, Mrs. Christine Collins, is as baffled as are the police in the search for a motive for Walter's disappearance. She is inclined strongly, however, toward the revenge theory, police say, and is

confident that no harm has befallen her son and that he will be returned to her.

GROUND RETRACED
In retracing the ground already covered in an effort to find any clew which might have been overlooked, Lieut. Hanson has interviewed Mrs. C. H. Wheeler, 221 North Avenue 23, according to his reports, and she said she saw a "foreign-looking" man acting strangely about the neighborhood the day Walter disappeared.

S. M. Penny, a grocer at 2330 Pasadena avenue, told the officers that on the day of the boy's disappearance several of his patrons told of seeing an automobile speeding from the neighborhood with a boy inside screaming.

Mrs. Lola Stillweg, 2322 Pasadena avenue, also said she saw a car leaving the neighborhood. In it she said a child was screaming as

if being taken away against his will.

Mrs. J. N. Bice, 2317 Pasadena avenue, said she and her husband were returning from a walk in Lincoln Park about the hour the boy disappeared. They saw a "foreign-looking" man acting in a suspicious manner. He said he appeared to be looking for someone.

Other neighbors of Mrs. Collins have made statements to police indicating that what they saw or heard was the boy's abduction.

MOTHER FOLLOWED
The mother told Lieut. Hanson that she and a girl friend were returning to her home one night shortly before the boy disappeared and they were followed by a suspicious-looking man.

With the dragging of the lake at Lincoln Park by Capt. Jones, Lieut. Hanson and Lieut. Hamilton, a former deep-sea diver and a group of trusties from the City Jail, squads of police also combed all freight yards and hobo camps to no avail. Other out-of-the-way places have been searched without success.

Police of Long Beach and other neighboring communities have thoroughly searched amusement spots, but have been unable to find the slightest trace of the child.

SHAW FACES DANGERS OF PNEUMONIA

Precautionary Measures Taken for Councilman; Davis' Collar Bone Set

Although no signs of pneumonia have been discovered as yet Dr. John MacLean, physician for Councilman Frank L. Shaw, is taking no chances and has his patient in a pneumonia jacket at the Angell Hospital as a precautionary measure.

"Mr. Shaw's condition is fair," the doctor stated last yesterday, "and he'll make it all right if no complications set in. He is handicapped by the shock received in the accident, but his condition is better than it was. No complications have set in as yet, but I have put him in a pneumonia jacket as an added precaution."

Dr. MacLean also has charge of Councilman Howard W. Davis, who was with Shaw when their automobile was struck by a Pacific Electric train Wednesday. Davis suffered a broken collar bone and a fractured right elbow. His collar bone was set yesterday morning and according to his physician, that procedure convinced the city official that he would not be up and around as soon as he thought he would.

Shaw's injuries consisted of internal lacerations, two fractured ribs, and a deep laceration of the thigh.

County Lets Contract for Drain System

The contract for the construction of a drainage system for Drainage Improvement District No. 23, in the eastern industrial district of the city, was let yesterday by the Board of Supervisors. The successful bidder is the Will F. Peck Company, whose lowest bid, at figures estimated to bring the total cost to \$21,324.28, was accepted.

The completion of this project will take care of the drainage questions in a portion of the city where it has been a serious problem.

SALESMAN LOSES SUIT FOR OUSTER DAMAGES

The action of H. T. Conner, salesman for the Western Blind and Screen Company of Los Angeles, in which he sought \$75,000 damages for the termination of his contract with the company, was decided for the company yesterday by Superior Judge Ames. Conner produced testimony that his sales for 1924 and 1925 amounted to \$245,000, of which his gross profits totaled \$69,000, leaving him \$42,744 net for two years' work. The company contended that his work was "unsatisfactory" and Judge Ames held that since there was no other authority than that of the company as to whether the salesman's efforts were satisfactory or not, he was compelled to decide against Conner.

"CAPTIVE" JURY INQUIRY STARTS

Tampering Suspicions Stir City Prosecutors

Stranger Who Talked With Veniemen Taken

Panel Completed Yesterday After Three Days

An investigation and possibly a request for a mistrial, if the facts warrant, will be made this morning by City Prosecutor Lickley as the result of asserted jury tampering in the trial of the case of "The Captive," asserted yesterday by Dr. Lickley announced last night.

The newest turn in the trial came late yesterday when a man who said he is a physician was halted by Detective Lieutenants Lane and Sweetnam after he is asserted to have conversed with members of the jury hearing the case.

"For several days this witness has been sitting with the defense counsel and dictating moves in the case, and has conducted himself in a manner that I felt warranted an investigation," Dr. Lickley said last night.

STRANGER TAKEN
The prosecutor declared that the witness, who appeared on the two detectives being assigned to watch him and that as court adjourned yesterday afternoon he was found talking to three jurors. The officers immediately took him into custody.

Defense Attorney Joseph Marchetti, who appeared on the scene as the man was taken into custody, said he had seen the man in court but knew nothing about him. Marchetti said that he would also request an investigation.

The witness, who has a card indicating he had been subpoenaed by the defense, denied talking of the case with the jurors, asserted that he merely had passed by the officers until the investigation today is completed.

JURY COMPLETED
Selection of a jury to try the case was completed just before court adjourned last night, and taking of testimony will begin when court convenes this morning. Edward W. Rowland and A. Leslie Pearce are the defendants.

The jury of nine women and three men includes the following: Mrs. Bude Wingo, 1128 West Seventh street; Mrs. Gertrude Ponder, 209 1/2 West Fifty-sixth street; Mrs. Virginia Cox, 5323 Lankershim Boulevard; Mrs. Catherine Luderer, 1223 Beachwood Drive; Mrs. Ora Cook, Eighty-fifth street and Harvard Boulevard; Edward P. Brady, 101 North Manhattan Place; Mrs. Merle Berchok, 1657 North Street; Mrs. Charles H. Heberer, 2647 West Avenue 10; Mrs. Mayne Schachliester, 138 West Fifty-fifth street; E. E. Williams, Highland Park; Mrs. Esther M. Pratt, 2513 North Broadway, and William R. Carter, Highland Park.

LAWYERS FITCH BOMB

Although three days were consumed in selecting the jury, and the prosecution had seven peremptory challenges left to use, Deputy City Prosecutors Barnes and Eberhard announced they are satisfied with the jury. The defense, through Attorney W. J. Clark, stated that they are not satisfied.

Just before court adjourned and as soon as the jury has been sworn, Barnes and Eberhard launched a legal sort of which brought down upon them the condemnation of the court and a roar of objections from the defense. Eberhard suggested to the court that as far as the prosecution was concerned it might be a good thing for the defense to put on a performance of "The Captive" for the benefit of the jury. Clark leaped to his feet with a vigorous objection to the suggestion and asked the court to assign the suggestion as misconduct on the part of the prosecution and to instruct the jury to disregard it.

NEVER HAS BEEN THREATENED
Judge Peck himself, exhibited some feeling in the matter in repudiating the prosecution, pointing out that the prosecution was utterly out of order in suggesting that the defendants to anything in presenting their case and that the suggestion might readily be construed as a form of commenting on whether or not the defendants testify at the trial. He instructed the jury to disregard the suggestion and not to permit it to enter into their consideration of the evidence in any way. The defense itself the day previous had intimated that they might want to present the play to the jury.

Council in court yesterday, however, informed the court that their clients had notified them that inasmuch as contracts with the performance had expired, it would cost defendants more than \$1000 to put on a performance, a cost considered prohibitive.

First witnesses for the prosecution this morning are expected to be police officers who participated in arrests of the cast and defendants and in the stopping of the performances.

During the examination of witnesses, the defense has been so busy that the theater he never got to go and that when he was in New Hampshire he lived so far from the theater he never got to go and that when he was in New Hampshire he lived so far from the theater he never got to go.

IMPROVEMENT ASKED
The paving of Two Hundred and fifty-second street from Bellflower avenue to the west city boundary has been asked of the Council by the Harbor City Improvement Association.

SLAUSON WIDENING AIDED
The Council has adopted the ordinance authorizing the widening of Slauson avenue from Central avenue to Figueroa street.

COLDEN BLOCKS AIRPORT ACTION

(Continued from First Page)

dinance, "but you are an obstructionist for you are doing all you can to prevent the people from deciding for themselves on May 1 whether Los Angeles is to have municipal airports."

CHARGE NOT DENIED
In a previous debate about the airport bond issue Councilman Alber charged Councilman Colden with attempting to block action because of the Council's refusal to authorize the purchase of the Bandalia site. Councilman Colden at that time and yesterday made no reply to this charge.

He said that to oppose the immediate adoption of the ordinance yesterday was "an embarrassing moment for him," that he was doing his duty as he saw it, was entitled to his convictions and was not making any recommendation he made in a previous debate that the bond issue should be placed on the ballot in three parts, one proposition for each of Assistant City Attorney Whitehead said that doing this would tie the Council's hands to purchasing these three sites regardless of any unreasonable prices or conditions that the owners might demand.

INDUSTRIES WAITING
In reply to Colden's suggestion that the airport bond issue might be postponed so that it could be placed on the ballot with other city propositions, President Bonelli said that this would delay the location here of aircraft industries and other related enterprises which are anxious to see if Los Angeles is willing to enter on an airport development program.

Councilman Hall said the national air races will be held here this year only if Los Angeles provides adequate fields for the flyers. He said that Los Angeles should not waste time in showing that it desires to be a leader in air transportation in the United States.

Councilman Colden's "no" vote was on the question of suspending the rules so that the airport bond-election ordinance could be considered yesterday. To suspend the rules requires a unanimous vote.

CIVIC BODIES INDORSE PROPOSED BOND ELECTION

The Los Angeles Chamber of Commerce and the Commercial Board of Los Angeles, in communications received by the City Council, have endorsed the Council's proposal to place before the voters at the May 1 Presidential primary election a \$4,000,000 revenue-producing bond issue for municipal airports in the Commercial Board in its letter to the Council said:

"We recognize the importance of the aviation program which you have publicly outlined in your recommendations for the purchase of these fields (Vail, Mines and Slauson fields) and can assure you of the fullest co-operation of the Commercial Board of Los Angeles."

The airport bond issue was also endorsed by the Civic Federation of Los Angeles county, which in a letter to the Council said:

"We endorse your intention of placing an airport bond issue on the May 1 ballot. We assure you of the fullest co-operation of the Civic Federation of Los Angeles county."

This letter was signed by President Norbert Savoy.

COUNTY BOARD CLEARS MACKAY

(Continued from First Page)

a general denial of all the Ramsey charges.

OTHER ISSUES IGNORED
Defense Attorney Jud Rush indicated that any fault on the part of Mackay was due solely to bad judgment. W. J. Clark, who acted in the role of prosecutor, said he drew an inference wholly opposed to this conclusion.

While Mackay was exonerated of bad faith in his handling of the Allen, Zesh and Kimmie cases, no reference was made to other matters which have been under scrutiny.

The Civil Service Commission, which conducted the hearing, is composed of A. C. Malone, president; Arthur G. Lindley and George Mattison. Sam Chappel is secretary.

The complaint was brought by Ramsey as an elector of the county. Ramsey was once an investigator for the District Attorney.

Trial Ordered in Auto-Theft Case

Taking the law into his own hands, Edward Schwartz commanded a passing automobile when he discovered some stealing his machine at Quail Lake along the Ridge Route, he testified in Municipal Judge Valentine's court yesterday at the hearing of Alpheus Wald.

Driving at breakneck speed, Schwartz pursued the stolen auto nearly to Lebec, where he halted Wald after firing several shots at the fleeing driver, he said. Deputy Sheriff's Bowers and Marty then appeared on the scene and took the suspect to the County Jail.

Judge Valentine held Wald for trial in the Superior Court on a fixed bail in the sum of \$1000 on motion of Dep. Dist. Atty. Oliver.

FARE CUT FOR RAINIER FETE
Special excursion rates for the California Rainier Festival at Fresno on Saturday, the 28th inst., have been authorized by the Southern Pacific and the Santa Fe railroads, according to announcement yesterday.

The reduced rates will apply from all stations between Los Angeles and San Francisco or Sacramento and will be on the basis of a one-way fare and a third for the round trip. Sales dates will be the 28th to 29th inst., with return limit of May 1, next.

First Meeting of Campaign Held at Headquarters

One Cash Gift of \$10,000 Contributed by Friend

Association Seeks to Pay Off Debt on Properties

The first report meeting of the Young Women's Christian Association campaign committee was conducted yesterday at the association headquarters, 541 South Figueroa street.

Mrs. Chester G. Ashby, president of the association, reported that a friend of the association has contributed \$10,000 in cash and that others have contributed considerable sums.

The campaign is actively under way and satisfactory response from the various supporters of the organization was reported by all the campaign workers.

Mrs. Lyman Farwell, treasurer, reported that several of the friends of the association have not waited to be called upon but have sent their checks in by mail.

The campaign, which is for the purpose of liquidating the indebtedness on the Figueroa street property and placing the Young Women's Christian Association on a financial basis, is being conducted among a limited number of the friends of the organization.

Santa Clara Reconstruction Progress Amazes

Clearing Land and Rebuilding Ditches Well Along

Fuller Co-operation Given by Landowners

Hundreds of huge piles of brush and debris are being cleared away and the Santa Clara Valley, as the army of workmen get the work of restoration underway, and swiftly reclaim hundreds of acres of orange, lemon, walnut and olive groves from the devastation brought by the collapse of the St. Francis Dam.

An official surveying party yesterday visited the entire twenty-five mile front from the Ventura county line at Kemp to the headquarters of the restoration and reconstruction organization at Santa Clara, just ten days after the city of Los Angeles appropriated a fund of \$1,000,000 and contracted with the Associated General Contractors for the clean-up of the sector.

MARVEL AT PROGRESS
Members of the party, who had seen the devastation the day following the crumbling of the dam, marveled at the progress of the work and the organization perfected to carry on the difficult task.

Actual work of reconstruction on irrigation ditches, water wells and aqueducts already is under way, and at Fillmore a well already has been reamed through the debris of the former dam. The Bureau of Water and Power, the rebuilding of homes, the replanting of lawns, of better gardens and landscaping will be started about the 10th inst., under present plans, and as soon as the necessary legal agreements have been completed.

GOING FULL SPEED
In speaking of the progress of the work, and the problems that must be met from day to day in the task of restoration, Supt. Bender said: "Ample funds have been provided for the work, the crews now are organized and are working with good speed, there is a spirit of co-operation everywhere, the good-will of the entire valley has been shown in many ways, and the only factor to stress now is the need of patience."

CAMP LOCATIONS
Battalions of workmen under the supervision of engineers from the contracting firms are working out of four points. Camp No. 1 is located at Santa Clara, where C. E. Bender, general superintendent of the entire work for the Associated General Contractors, Assistant City Attorney Green, supervising the interests of the city of Los Angeles, and J. E. Phillips, field engineer, are located.

Mr. Van Norman, assistant engineer and general manager of the Bureau of Water and Power, have their offices, and from which the entire network of restoration is directed. At this camp are contractors Wells and Bender, C. V. Bender and E. A. Irish. Camp No. 2 at Fillmore is the headquarters of Thomas Haverly Company, E. E. Littlejohn Company and Robinson Roberts Company. Camp No. 3 at Bardonia is the central point for the operations of the Associated General Contractors and George Mitchell Company, while Camp No. 4 at Piru is handled by Peter Perry with two outfits.

According to Attorney Green, the original estimate of thirty days to complete the first phase of restoration, the removal of the debris, will be attained, as well as the budgeted expenditure of \$300,000 covering the financing of the work. "Work has been under way for several days and Green yesterday, "and we estimate through our daily reports and inspection that the removal of the debris will be attained, as well as the budgeted expenditure of \$300,000 covering the financing of the work."

OWNERS FRAMED
Green had the highest praise for the co-operation shown by the landowners, and said that permits covering the entire area practically are all signed and in headquarters. "A casual estimate of the total damage with reference to lands and property was made yesterday by Engineer Van Norman. The engineer said that his figure of \$6,000,000 is based on his observations over the entire flooded district from the site of the dam to the sea, and on the rapidly with which the restoration work was being completed."

SIX BARBERS SENT TO JAIL
The \$6,000,000 figure, said Van Norman, "I believe will restore the orchard and pasture lands, reconstruct the homes, and place the valley in as far as physically possible the condition it maintained before the flood. In some cases orchard lands have been greatly benefited by the deposits of silt."

Five-Day Terms Imposed for Failing to Sterilize Instruments After Use on Each Patron
Sounding a warning for local barbers who persist in refusing to sterilize their instruments after each use, Municipal Judge Wilson yesterday imposed five-day sentences on six barbers taken into custody in the campaign opened by City Health Commissioner Parrish for more sanitary business conditions.

The sentences followed a plea made by Deputy City Prosecutor Harry Margul, who declared the public "will have no protection whatever if the defendants are to go unpunished."

Those sent to jail are Pedro and Jose Galindo, operators of a barber shop at 325 North Main street; Thomas C. Clark, shop at 4408 West Second street; Fernando Huesca, 494 North Main street; and Alphonse, Bordeaux and Vito Adellaz, proprietors of a shop at 534 Santa Monica Boulevard.

In addition to the jail sentences the six were fined \$10 each for failing to use individual towels for each patron. Claude Overlin, also a barber, at 4401 South Hoover street, was fined \$10 for using unsterilized towels, but the second charge against him of failing to sterilize his instruments was dismissed for lack of evidence at the request of M. E. Siegel, chief inspector for the City Health Commission.

FLOOD DEATH CLAIMS FILED

Widow of Aviator Killed in Crash Making Disaster Survey Among Four Asking Compensation

Applying for compensation for the death of her husband, C. W. English, Edison company clerk and aviator, who was killed on March 13, near San Fernando, while flying in a fog, Mrs. A. M. English, widow of the aviator, filed a formal application with the State Industrial Accident Commission yesterday.

THREE OTHER CLAIMS
Three additional applications for compensation in flood cases were filed with the commission. They are:

Mrs. Josephine Olive Hawkins filed claim against the Southern California Edison Company, on account of her husband, George P. Hawkins, who "has been missing since the flood."

Mrs. Florence Ida Rich filed against the California Edison Company on account of her husband, Edward James Rich, who "has been missing since the flood."

Mrs. Lillian Curtis filed a claim against the Water and Power Commissioners on account of her husband, Lyman W. Curtis, who, she asserts, was drowned in the disaster.

"TIMES" FLOOD RELIEF FUND
The Times, which started a fund for the relief of victims of the St. Francis Dam disaster with a contribution of \$1000 of its own, will receive, acknowledgment by publication and turn over to the Red Cross any contributions of money which may be sent to this paper for the purpose.

Checks sent to this paper for the fund should be made payable to THE TIMES FLOOD RELIEF FUND and the envelopes should be addressed to The Times Flood Relief Fund, Care of The Times, Los Angeles, Cal.

Up to 3 p.m. yesterday The Times Flood Relief Fund stood at a total of \$95,223.11, as follows:

Previously acknowledged... \$92,546.19
Benefit Tournament held at California Country Club... \$18.90
Benefit Judge Valentine held at California Country Club... \$25.00

Total... \$95,223.11
Western Lithograph Co. Trena Chapter of the Amalgamated Order of Billy Goetz... \$8.00
California United States Daughters of 1812... \$40.00
Additional donation of Chapter W.F.O.O. 1... \$1.00
Two friends... \$1.00

LOCAL CO-ED WINS FIRST IN ORATORY
Beats National Entrants in Pi Kappa Delta Meet at Tiffin, O.

Representing the University of California at Los Angeles, Genevieve Temple won first place in the women's national oratorical contest Tuesday evening at the Pi Kappa Delta convention at Tiffin, O.

Each chapter of Pi Kappa Delta, national honorary fraternal fraternity, represented at the convention, entered one delegate, and Miss Temple was rated highest by four of the five judges.

Miss Temple is accompanied by Ruth Gooder, Arthur White and Kenneth Piper, all veteran debaters and members of the U.C.L.A. chapter of Pi Kappa Delta. Prof. Charles A. Marsh, debate coach and head of the public-speaking department at University of California at Los Angeles, also is a delegate.

Boy Victim of Shotgun Dies
Victim of an unloaded gun, Byron Faulster, 10 years of age, of Big Pine, died in the General Hospital yesterday of a wound in the right chest.

The wound was received Wednesday evening when young Faulster went to the home of Huddy Joseph, a schoolmate, after school to inspect a new shotgun.

SEVEN ATTACK REPORT ON DAM

(Continued from First Page)

borg testified, disclosed that Point B now is 96 of a foot closer to the fault line; that Point C is 10 of a foot closer and that Point B is 23 of a foot higher than in 1924. The direction of movement is shown to have been that of a crushing together and upheaving of the dam especially at the west side, which, it generally agreed, failed first and precipitated the disaster.

Reverting to Hemborg's testimony, Juror Nelson asked: "That would indicate that the hole had been moved, would it not?"

To which Hemborg replied: "I'd say that it does."

The jury, the majority of whose members are engineers, spent considerable time going into technical details with the witness and appeared impressed by his testimony.

OPPOSES VIEW
The sole opposition to it (came from Allen E. Sedgewick, one of the geologists on the inquiry board, who previously had testified that, without having made any examination with instruments, it was his opinion that no seismic movement had occurred at the dam site and that the structure's failure was not due to an earth movement.

Juror Nelson requested Sedgewick to assume that Hemborg's findings are correct and asked: "Then how do you account for the raise in the hill?"

Sedgewick's reply was that human error in surveying might account for the differences, that the differences in seasons of the year when the measurements were made and that difference in moisture in the earth might make such variations as described.

In other testimony Sedgewick said that the building of a dam across an earth fault is not unusual in practice nor dangerous in theory. Incidentally in discussion of damages from earthquakes, he said concrete and steel structures can be made reasonably safe against even moderately severe temblors, but that brick construction in an earthquake zone is unsafe.

DEL VALLE TESTIFIES
President Del Valle of the Board of Water and Power Commissioners testified that he had been on the board had turned over to Chief Engineer Mulholland practically all authority in building the dam that failed.

"The board had the utmost confidence in his judgment and has now," Del Valle said. "This is the first time that I have been required to testify that I have been wrong."

He said that Mulholland frequently was used to his full extent by the board and he always found him efficient and competent.

He said that Mulholland frequently was used to his full extent by the board and he always found him efficient and competent.

DAM-FLOOD ECHO HEARD IN SUIT

Surviving Member in Family of Eight Asks Right to Estate

Enrique J. Ruiz, the only survivor of the eight members of the family of Enrique R. Ruiz, yesterday applied for letters testamentary over the estate of his father. The rest of the family was swept to death in the St. Francis dam flood.

The elder Ruiz will left his estate to his wife for life, with the stipulation that after her death it should go to his children. The surviving son, under the circumstances, will inherit all of the property, valued at \$60,000.

necessary by the collapse of the St. Francis Dam. It is possible that the power department may borrow money to start rebuilding Power Plant No. 2.

The short-term financing cannot be used, Whitehead said, for paying claims for property and other damage caused by the collapse of the dam.

USE OF SURPLUS URGED TO PAY FLOOD DAMAGE
A resolution recommending that the city utilize the surplus funds of the water and power department approximately \$26,811,764.72 for any liabilities which the municipality may face as result of the St. Francis Dam disaster, rather than increase the water rates, has been passed by the Women's Political League of Los Angeles.

President M. Arnold, press chairman of the organization, in announcing the resolution yesterday declared that "the city should take an active interest in all public affairs and should make a definite demand for proper governmental administration of available funds" rather than allow the funds to lie idle and increase the water rates.

The resolution also recommends that the available funds, \$13,046,387.47, in the water department, and \$23,765,419.25 in the power department, be used to the full extent before water rates are raised or further taxes levied. The resolution was adopted on the 6th inst.

J. I. Crabtree in City to Arrange Film Convention
Arrival in Hollywood yesterday of J. I. Crabtree of Rochester, New York, research expert of the Eastman Kodak Company, and chairman of the entertainment committee, instituted active plans for the convention of delegates to the convention of the Society of Motion Picture Engineers, which opens Monday in the headquarters of the Academy of Motion Picture Arts and Sciences in the Roosevelt Hotel.

Advises were brought by Crabtree that a special train running as a section of the California standard will arrive in Los Angeles Monday with more than 100 engineering experts of the film industry to attend the sessions.

The bodies of three more victims of the St. Francis Dam flood have been found and two have been identified. The body of Harold Kelly, 47 years of age, was found yesterday morning. Burial will be at Bardonia today.

The body of Edw. Rich, a Southern California Edison Company employee, was found Wednesday on the debris of the dam. He was killed by his wife. It will be forwarded to San Diego for burial.

An unidentified body was found yesterday was found Wednesday on the Pinkerton ranch near Santa Paula. It was taken to the Reardon undertaking parlors at Ventura.

The Bardonia bridge will be rebuilt as soon as funds for its construction are available. It will cost more than \$100,000, according to County Engineer Pettit of Ventura county.

T. G. Gabbert, chairman of the Board of Supervisors, yesterday declared in Santa Paula that the bridge will be built by the time the orange season arrives.

COUNCIL TO ACT FOR BUILDING RESERVOIRS
The City Council this morning is to consider adoption of the procedure ordinance which will be a start toward later ordinances authorizing the making of short-term loans in emergency cases.

The notes will be for a period of five years and are secured by and paid off from the earnings of the water and power department. The interest rate cannot exceed 6 per cent.

Assistant City Attorney Whitehead informed the Council that should the water department be authorized to build reservoirs and other works made necessary by the dam disaster.

The procedure ordinance merely carries out the provisions of the city charter authorizing these short-term loans in emergency cases. The notes will be for a period of five years and are secured by and paid off from the earnings of the water and power department. The interest rate cannot exceed 6 per cent.

THEIR MOODS CLASH SO THEY PART WAYS

Virginia Brown Faire

SCREEN PAIR DECIDE ON SEPARATION

Jack Dougherty and Wife, Virginia Brown Faire, Say They're Still Friends

Virginia Brown Faire, film actress, and her husband, Jack Dougherty, also well known in the cinema, yesterday decided on separate paths, for the immediate future at least.

Yesterday they admitted they were unhappy in their marriage. Miss Faire now is living with her mother, while Dougherty remained at the home they occupied in Beverly Hills.

In a companionability was assigned by the divorce court. The reason for the marital split. This is the second separation of the couple since their marriage on February 1, 1927, the first occurring last September and lasting but four days.

Dougherty was the last husband of Barbara La Marr, famous screen actress who died some time ago.

"Jack and I departed the very best of friends," Miss Faire said yesterday in admitting the breach. "It is solely because we were not able to get along happily as a couple."

Whether or not they will go to the divorce court, Miss Faire was unable to say. She asserted she has not given divorce a thought in her mind.

Dougherty corroborated Miss Faire's statement concerning their separation. He, too, said he and Miss Faire parted on amiable terms.

"It was only this morning she dropped by the house to say hello," he said.

Both expressed the opinion there are some hopes left for a reconciliation. Miss Faire said she and Dougherty will endeavor to adjust themselves to the circumstances first before reaching a decision as to whether they shall attempt to patch up matters or resort to the courts to solve their problems.

CLERK DIES AFTER COLLAPSE IN STREET
Charles Williams, 36-year-old clerk of 5430 Eleventh avenue, collapsed on the City Hall steps yesterday and died on the way to the Hillside Receiving Hospital. Surgeons diagnosed his ailment as an internal hemorrhage. Williams leaves his widow and three sons.

LIONS' CLUB MEETS TODAY
Nick Harris, detective, will be the chairman at the regular weekly luncheon meeting of the Los Angeles Lions Club in the main room of the Billmore at noon today. He has arranged an afternoon in the broadcasting station of KABC, some of the features will be a musical comedy, a play, and a variety show.

FRATERNITIES DENOUNCED
High-School Principals Take Steps to Fight One Teacher Faces Official Action

By a "Times" Staff Correspondent
LONG BEACH, April 5.—More than a thousand high school principals of California today spent the busiest day of their annual convention in session here. The convention will close tomorrow.

Today's activities were climaxed by an address by Dr. Hubert Phillips of Fresno State Teachers' College on "Educating an Adult Community." Dr. Phillips was the principal speaker at the evening session, which was held at the Hotel Virginia.

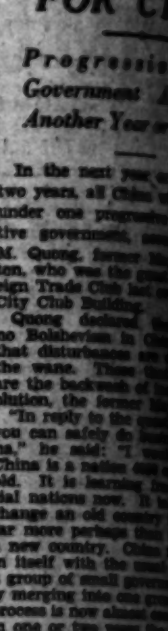

A reception for delegates and visitors was one of the outstanding social features of the convention. It was given tonight at the Hotel Virginia.

Although complaints registered with the State Board of Education relative to the conduct of school teachers and principals are numerous in the course of a year, it was revealed that the Board of Education, meeting here in conjunction with the high-school principals convention, found only one case that was regarded as sufficiently serious to warrant official action.
